- 4) As per policies of the Central Government, from time to time, the Procuring Entity reserves its option to give purchase preferences to eligible categories of Consultants as indicated in the RFP Document.
- 5) evaluation of Proposals shall include and consider the following taxes/ duties, as per ITC-clause 5.3 above:
 - a) in the case of Services performed in India or incidental goods of foreign origin already located in India, GST & other similar duties shall be contractually payable on the Services and incidental Goods if a contract is awarded to the Consultant;
 - b) The offers shall be evaluated based on the GST rate quoted by each consultant, and the same shall be used for determining the inter-se ranking. The Procuring Entity shall not be responsible for any misclassification of the HSN number or incorrect GST rate quoted by the Consultant. Any increase in GST rate due to misclassification of HSN

number shall have to be absorbed by the supplier; and

c) If GST is quoted extra but with the provision that it shall be charged as applicable at the time of delivery, the offer shall be evaluated for comparison purposes by loading the maximum existing rate of GST for the product/ HSN code.

d) If a bidder enters “zero/blank” GST or an erroneous GST, the financial evaluation will be done considering the “Zero” or quoted GST rate, as the case may be. In cases where the successful bidder quotes the wrong GST rate for releasing the order, the following methodology will be followed:

- i) If the actual GST rate applicable is lower than the quoted GST rate, the actual GST rate will be added to the quoted basic prices. The final cash outflow will be based on the actual GST rate.
- ii) If the actual GST rate applicable is more than the quoted GST rate, the basic prices quoted will be reduced proportionately, keeping the final cash outflow the same as the overall quoted amount.

6) Correction Errors/ adjustments:

a) Loading for Deviations: Unless announced beforehand, the quoted price shall not be loaded based on deviations in commercial conditions. If it is so declared, such loading of a financial Proposal shall be done as per the relevant provisions;

b) Discrepancies between Technical and Financial Proposal:

- i) Activities and items described in the Technical Proposal but not priced in the Financial Proposal shall be assumed to be included in the prices of other activities or items, and no corrections are made to the Financial Proposal.
- ii) If a Lump-Sum contract selection method is declared in the RFP, the Consultant is deemed to have included all prices in the Financial Proposal, so neither arithmetical corrections nor price adjustments shall be made.
- iii) If a Time-Based contract selection method is declared in the RFP, in case of discrepancy between the Technical and Financial Proposals in indicating quantities of input, any higher quantities in Technical Proposal shall prevail, and the quoted total prices shall be assumed to apply to this higher quantum. The unit rate for such activity shall be accordingly adjusted. No such correction shall be done if quantities are lower in the Technical proposal.

c) **Discounts and Rebates:** If any Consultant offers conditional discounts/ rebates in his Proposal or suo-motu discounts and rebates after the Proposal Opening (techno-commercial or financial), such rebates/ discounts shall not be considered for ranking the offer. But if such a Consultant gets selected as per the selection method, without discounts/ rebates, such discounts/ rebates shall be availed and incorporated in the contracts;

d) **Price Variation:** If the tenders have been invited on a variable price basis, the tenders shall be evaluated, compared, and ranked based on the position as prevailing on the last deadline for techno-commercial Proposal submission and not on any future date.

7) **Ambiguous Financial Proposal:** If the financial Proposal is ambiguous and leads to two equally valid total price amounts, it shall be rejected as nonresponsive.

8) **Time-Based (Input Admeasurement) Contracts:** The Consultant's Proposal must include the Key Experts' time-input person-months not less than the minimum specified in Section VI-A: List of Key Experts and Required Qualifications.

a) **Minimum Time Inputs:** if a Proposal includes less or more than the required minimum person-month time input, the proposal shall be considered as per sub- clause 6. b)-iii) above for that key-position

b) The proposal shall be evaluated based on remuneration cost plus reimbursable expenses as quoted by the consultants in the prescribed financial forms. The travel expense (TA/DA for authorized travel outside the home station) shall be reimbursed by the Procuring Entity on an actual basis. It shall be limited to the entitlement in Appendix D to the Contract Form. Therefore, travel expenses (TA/DA for authorized travel outside the home station) need not be quoted in the financial proposal for evaluation.

9) **Quality and Cost-Based Selection (QCBS):** In the case of QCBS, the total score is calculated by 60% weightage to the technical, 20 % Weightage to the performance security Quoted by the bidder and 20% weightage to financial quote submitted by bidder and adding them to obtain a combined QCBS (Technical cum Financial) score, as explained in the sub-clauses below. The proposal obtaining the highest total combined score in evaluating quality and cost will be ranked as H-1, followed by the proposals securing lesser marks as H-2, H-3 etc. The proposal securing the highest combined marks and ranked H-1 will be invited for negotiations as per ITC-Clause 12 below. If two or more bids have the same highest score in the final ranking, the bid with a higher

financial score will be H-1.

- a) The Technical Proposals are given an absolute technical score (Ta out of max 100) based on the evaluation criteria in Section VII: Evaluation/ Scoring Criteria. However, to normalise this w.r.t. Financial Score Sf below, a relative Technical Score (St) based on their relative ranking shall be calculated. The highest evaluated Technical Score (Ta-max) is assigned the maximum relative Technical Score (St) of 100 (Hundred). The formula for determining the relative Technical scores (St) of all other Proposals is as follows:

$$St = 100 \times Ta / Ta\text{-max},$$

in which "Ta-max" is the highest evaluated absolute Technical Score, "St" is the relative Technical score calculated, and "Ta" is the absolute Technical Score of the proposal under consideration. This normalisation would avoid any unintended magnification of weightage to the financial score due to different scales of Technical Scores and Financial Scores.

- b) The Financial Proposals shall be evaluated in two parts :-
- i) The relative ranking of performance security, with the highest performance Security (PBGm) being assigned the maximum financial score (PBGf) of 100(Hundred). The formula for determining the financial scores (PBGf) of all other Proposals is as follows:

$$PBGf = 100 \times PBG / PBGm,$$

in which "PBGm" is the highest performance security offered, "PBGf" is the financial score calculated, and "PBG" is the amount of PBG of the proposal under consideration.

Note:- If quoted Performance Bang Guarantee is less than 5% of the financial proposal quoted by the bidder, The bid shall be considered as non responsive and will not be further evaluated.

- ii) The cost-score based on the relative ranking of prices, with the lowest evaluated Financial Proposal (Fm) being assigned the maximum financial score (Sf) of 100(Hundred). The formula for determining the financial scores (Sf) of all other Proposals is as follows:

$$S_f = 100 \times F_m / F,$$

in which "F_m" is the price of the lowest offer, "S_f" is the financial score calculated, and "F" is the price of the proposal under consideration.

- c) The weights given to the Technical (T), Performance BG (PBG) and Financial (P) Quote Proposals are specified in TIS/ AITC:

T (the weight given to the Technical Proposal) = 60%, and PBG (the weight given to the PBG Financial Proposal) = 20% %

S_f (the weight given to the Financial Quote of services by bidder) = 20% %
(with T + PBG_f+S_f = 100%)

- d) Proposals would be ranked according to their combined QCBS (weighted technical, S_t and financial, S_f (which will include of PBG and financial Quote)) scores as follows:

$$S = (S_t \times T + PGB_f \times PBG + S_f \times P) / 100.$$

in which "S" is the combined QCBS score, "S_t" is the relative technical score calculated as per sub-clause a) above and "S_f" is the financial score calculated as per sub-clause b) above.

- e) All scores shall be calculated up to two decimal places only.

11.4.2 Global Tender Enquiry (GTE, International Competitive Bidding)

The following additional aspects of the evaluation of the financial offer shall also apply:

1) Currency of Tender

In GTE tenders, if permitted in AITC, the Proposal price may be in foreign currencies, except for expenditure incurred in India (including incidental Works/ Goods/ Services delivered in India and agency commission, if any) should be stated in Indian Rupees.

2) Evaluation of Offers

All financial Proposals shall be converted to Indian Rupees based on the "Bill for Collection (BC) selling" exchange rate on the last deadline for the Proposal submission (Techno-commercial offer) from a source as specified (State Bank of India, if not so specified) in the tender document. The offers would be compared

based on the principle of the total outgo from Procuring Entity's pockets, including all applicable taxes and duties (Customs duty, GST, and GST Cess). For Proposals with Letter of Credit (LC) payment, the likely LC charges (as ascertained from the Procuring Entity's bankers) should also be loaded. Import of Goods or services or both attract integrated tax (IGST). The IGST rate and GST cess shall be applicable on the 'Custom Assessable Value' plus the 'Basic Customs duty applicable thereon'.

The terms FOB, FAS, CIF, DDP etc., shall be governed by the rules & regulations prescribed in the current edition of INCOTERMS, published by the International Chamber of Commerce, Paris

12. Contract Negotiation

12.1. Invitation to Negotiate

The negotiations shall be held at the date and address announced after the selection of the successful Consultant with their representative(s), who must have written power of attorney to negotiate and sign a contract on behalf of the Consultant. 12.3. Availability of Key Experts:

Failure to present Key Experts' for interaction/interview before the Authority at given date and time may result in the Consultant's Proposal being declared non-responsive and the

Procuring Entity proceeding to negotiate the Contract with the next-ranked responsive Consultant. However, Authority may finalise a scheme of empanelment of key personnel and finding their suitability for a specific job profile and update the suitability/ empaneled status on Infracon. Those key personnel who have been declared suitable on Infracon for a particular role shall not be interviewed again at the time of negotiation. Only those key personnel will be interviewed at negotiation stage who has not been empaneled for a particular post on Infracon portal shall be interviewed at negotiation stage to find their suitability for the assignment.

Notwithstanding the above, the substitution of Key Experts at the negotiations may be considered if due solely to circumstances outside the reasonable control of and not foreseeable by the Consultant, including but not limited to death or medical incapacity or as per the conditions specified in this RFP. In such case, the Consultant shall offer a substitute Key Expert within the period specified in the invitation letter to negotiate the Contract, who shall have equivalent or better qualifications and experience than the original candidate.

As per ITC-Clause 11.3.1-4), Procuring Entity reserves its right to seek during negotiations the replacement of the Team Leader/ other Key Experts who found not suitable for assignment during interaction/interview.

The negotiations are concluded with a review of the finalized draft Contract, which shall be initiated by the Procuring Entity and the Consultant's authorized representative.

Equipment based road inspection shall be done by the Authority's Engineer twice a year as per the month of the year defined in the following table.

However, since the first survey shall be conducted at the time of completion testing, the following modification to the schedule shall be adopted. For example, if majority of highway length (>50%) passes through a state, where defined survey months are May and November, if completion testing is conducted in April, then the first equipment based survey shall be conducted in the month of April. This shall be considered as the equipment based survey to be conducted in the month of May. The 2nd equipment based survey shall be conducted in the month of November, the 3rd survey shall be conducted in the month of May and so on. As regards FWD, the first test/survey shall be conducted at the time of completion in April. The 2nd test/survey shall be conducted in April of next year and so on.

Annexure VII: OUTPUT FORMAT FROM NETWORK SURVEY VEHICLE AND FWD TESTING (SECTION 1: TESTING AT TIME OF COMPLETION, SECTION 2: FWD ATTRIBUTES - ANNUALLY, BALANCE PARAMETERS -BIANNUALLY AFTER CONSTRUCTION PHASE)

In addition to the reports being submitted on equipment based inspection as specified in Section 4.2 of the Monthly Progress Report in the O&M phase, the Authority Engineer (AE) shall submit electronically in excel (.xls) format certain key parameters to the Project Director in the following format.

Worksheets under Section 1 ('Road inventory data') shall be updated from surveys conducted only once at the time of completion testing. Worksheets under Section 2 ('Road condition data') shall be updated from surveys carried out annually for FWD attributes and biannually for the remaining attributes.

The fields to be updated in each of the worksheets are described below. Each description is followed by an example of data for a sample project.

SECTION 1 - ROAD INVENTORY DATA

Road inventory data consists of parameters which provide basic information about roads such as pavement type, number of lanes, topography, etc. These parameters are largely static in nature, and therefore a survey to update this dataset shall be conducted only once at the time of completion testing. The road inventory data shall be used to update specific worksheets listed below.

SECTION 2 - ROAD CONDITION DATA

Road condition data consists of parameters which directly affect maintenance requirements of the road. These parameters are dynamic in nature, and therefore a survey to update this dataset shall be conducted annually for FWD testing and every six months as per Annexure IV for network survey vehicle testing. The first survey shall be conducted at the time of completion testing and the remaining surveys shall be conducted as per the defined frequency.

As an example, if majority of highway length (>50%) passes through a state, where defined survey months are May and November, if completion testing is conducted in April, then the first network survey shall be conducted in the month of April. This shall be considered as the network survey to be conducted in the month of May. The 2nd survey shall be conducted in the month of November, the 3rd survey shall be conducted in the month of May and so on. As regards FWD, the first test/survey shall be conducted at the time of completion in April. The 2nd test/survey shall be conducted in April of next year and so on.

The road condition data shall be used to update specific worksheets, which are listed below.

NHIDCL Office Order dated 22nd March 2023 regarding e-BG and online payment

National Highways & Infrastructure Development Corporation Limited
3rd Floor, PTI Building, New Delhi-110001

Dated: 22nd March 2023

Office Order

Subject: Mandatory E-BG, EMD and Tender fee Deposit through Induscollect

E-Bank Guarantee

An Electronic Bank Guarantee (e-BG) eliminates the physical documentation usually associated with issuance of BG. It reduces the turn-around time of the BG. The digital steps in an e-BG includes BG application, preview and confirm, paperless e-stamping, e-signing, hosting of the final electronic BG on the NeSL portal and intimation of final BG to the beneficiary (e.g NHIDCL). The beneficiary can view the final digital BG on the NeSL portal immediately on issuance. Such an e-BG eliminates the need for a separate authentication from the BG issuing Bank. At present seven banks are issuing E-BG (State bank of India, Canara Bank, Indian Overseas Bank, HDFC Bank, ICICI Bank, Axis Bank and Yes Bank and more may start soon. The Ministry of Road Transport and Highways has prescribed acceptance of E-BGs vide their OM No. NH-35014/20/2020-H dated 12th August 2022.

2. The bidders/contractors/DPR Consultants and Authority Engineers submit BG as bid security, PBG, APBG and BG against advances. It takes time in getting SFMS confirmations and in many cases, the SFMS confirmations are not received.
3. In view of above, the Competent Authority has decided that from first April 2023 only E-BG shall be accepted. No BG shall be accepted in the physical form. The format of the BG will remain the same as prescribed in the RFP documents.
4. Entity ID of NHIDCL is AAECN7759E, which may be quoted for getting e-BG.
5. For any further details, the bidders/contractors may visit the website of National E Governance Services Limited at <https://nesl.co.in/e-bg/>
6. For E-BGs, the IFSC code and name of the bank should be continued to be Canara Bank, Transport Bhawan, Sansad Marg, New Delhi-11001 as given below:
