# NATIONAL HIGHWAYS & INFRASTRUCTURE DEVELOPMENT CORPORATION LTD. (Ministry of Road, Transport & Highways) Government of India

**Schedules** 

**FOR** 

"Construction of 2 Laning with Hard Shoulder of Peren - Dimapur section on NH - 129A from Design Km 163.592 to Km 173.850 (Length - 10.258 Km) in the state of Nagaland on EPC mode (Pkg - IV) under NH (O) - TSP"

Engineering, Procurement & Construction (EPC) Mode

**BID DOCUMENT** 

September 2023

National Highways & Infrastructure Development Corporation Ltd (A Government of India Undertaking)

**Schedule** 

(See Clause 2.1 and 8.1)

#### SITE OF THE PROJECT

#### 1 The Site

Site of the Two-Lane Project Highway shall include the land, buildings, Structures and road works as described in Annex-I of this Schedule-A.

The dates of handing over the Right of Way to the Contractor are specified in Annex-II of this Schedule-A.

An inventory of the Site including the land, buildings, Structures, road works, trees and any other immovable property on, or attached to, the Site shall be prepared jointly by the Authority Representative and the Contractor, and such inventory shall form part of the memorandum referred to in Clause 8.2(i) of this Agreement.

The alignment plans of the Project Highway are specified in Annex-III. In the case of sections where no modification in the existing alignment of the Project Highway is contemplated, the alignment plan has not been provided. Alignment plans have only been given for sections where the existing alignment is proposed to be modified.

The status of the environment clearances obtained or awaited is given in Annex-IV.

#### Annex - I

(Schedule-A)

#### Site

#### 1. Site

"The Site of the [Two-Lane] Project Highway comprises the section of NH-129A commencing from km 162+890 to km 173+850 i.e. From Heningkunglwa to Peren-Dimapur district boundary in the state of Nagaland. The Land, carriageway and structures comprising the site are described below.

# 2. Land

The Site of the Project Road comprises of ROW of about 8.0 m. The existing condition of the road is poor in most of the stretch. The terrain is hilly in the entire stretch.

# 3. Carriageway

The present carriage way of the Project Highway is Single/Intermediate/two Lane from km 162+890 to km 173+850. The type of the existing pavement is Flexible.

# 4. Major Bridge

The Site includes the following Major Bridges:

	Location	Ту	pe of Structur	Longth of Bridge/Spon	Total width	
S/no	Location in km	Super Structure	Sub Structure	Foundation	Length of Bridge/ Span Arrangement (m)	(m)
			NIL			

# 5. Road over-bridges (ROB)/ Road under-bridges (RUB)

The Site includes the following ROB (road over railway line)/ RUB (road under railway line):

SI No	Chainage(km)	Type of structure  Foundation Superstructure		No of Span with Span length(m)	width (m)	ROB/RUB		
	NIL NIL							

# 6. Grade separators

The Site includes the following grade separators:

SI No	Chainage(km)	Туре о	f structure	No of Span with Span	width		
		Foundation	Superstructure	length(m)	(m)		
NIL							

# 7. Railway level crossings

The Site includes the following railway level crossings:

SI No Location(km)		Remarks			
NIL					

# 8. Underpasses (vehicular, Non vehicular)

The Site includes the following underpasses:

SI No	Chainage (km)	Type of structure	No of Span with Span length(m)	width (m)		
NIL						

# 9. Truck Lay bays

The details of truck bays on the Site are as follows:

SI	No	Chainage(km)	Length(m)	Left Hand side	Right Hand side		
NIL							

# 10. Road side drains

The details of the roadside drains are as follows:

	Loc	ation	Туре			
SI. No.	From km	To km	Masonry/cc (Pucca)	Earthen (Kutcha)		
1	165.690	167.340	•	Katcha (single side )		
2	167.422	167.585	-	Katcha (single side )		
3	167.670	168.300	•	Katcha (single side )		
4	168.422	170.772	-	Katcha (single side )		
5	170.800	170.963	•	Katcha (single side )		
6	171.027	171.216	•	Katcha (single side )		
7	171.372	172.018	-	Katcha (single side )		

# 11. Minor Bridges

The Site includes the following Minor Bridges:

Chainage(Km)	No of span	Width	
	NIL		

# 12. Culvert

SI. No.	Chainage (km)	Type of Culvert	Span/Opening with Span Length	Width of Culvert (m)
1	163.770	HP	1x0.3	8.5
2	166.324	HP	1x1.2	8.5
3	167.300	HP	1x0.6	8.5
4	168.302	HP	1x 0.6	6.3
5	168.488	HP	1x 1.2	6.2
6	169.314	HP	1x 1.2	8.5
7	169.625	HP	1x0.6	6.5
8	170.235	HP	1X0.6	7
9	170.676	HP	1X0.6	8.4
10	171.375	Slab	1x3.2	7.3
11	171.604	HP	1x0.6	6.2
12	171.665	HP	1x0.6	6.2
13	171.845	HP	1x0.3	6.2
14	172.220	HP	1x0.3	6.2
15	172.362	HP	1x 0.6	6.7
16	172.588	НР	1x 0.6	6.2
17	172.878	HP	1x 0.3	7

# 13. Bus bays

The details of bus bays on the Site are as follows:

SI No	Chainage(km)	Length(m)	Left Hand side	Right Hand side	
-------	--------------	-----------	----------------	-----------------	--

NIL

# 14. Major Intersections along project:

The details of the minor junctions are as follows:

	Locatio	on			Category of Cross Road			ory of Cross Road
S. No.	From km	to km	At grade	Separated	NH	SH	MDR	Others
1	162.890		<b>√</b>					Towards Jharnapani (RHS), Towards Village Road (RHS)

# 15. Minor Intersections along project:

The details of the minor intersections are as follows:

SI.	Locat	ion	Туре о	fintersection	Road	Towards
No.	From Km	To Km	T-Junction	Cross Road	Type	
1	163.500		Х	4-legged	GR	Towards Village Road
2	163.650		Υ	3-legged	GR	Towards Village Road
3	165.433		Υ	3-legged	ER	Towards Aggricultural Land
4	165.658		Т	3-legged	ER	Towards Rubber Garden
5	168.303		Υ	3-legged	ER	Towards Mahainamtsi

# 16. Bypass

The details of Bypasses are as follows:

CI N.	Name of	Chainage (km)		Length (in	Carriage	way
SI No	bypass (town)	from (km)	To (km)	km)	Width (m)	Туре

NIL	

# 17. Other structures

Nil

# Annex II

# (As per clause 8.3 (i))

(Schedule-A)

# **Dates for providing Right of Way**

The dates on which the Authority shall provide Right of Way to the Contractor on different parts of the Site are stated below:

Sl. No	Design (	Chainage	Length	Proposed ROW Width (m)  Date of Providence o	
50. 110	From	(1/m)		Troposed Now Width (III)	proposed ROW
i) 90% of ROW (full width)	163.592	173.850	10.258	Varying ROW from minimum 18 m to maximum 24 m at different locations	At Appointment Date
ii) Balance Right of way (width)	163.592	173.850	10.258	Varying ROW from minimum 18 m to maximum 24 m at different locations	Within 150 days after the Appointed Date

\_

Annex - IIII

(Schedule-A)

#### **Alignment Plans**

The existing alignment of the Project Highway shall be modified in the following sections as per the alignment plan indicated below:

- i) The alignment of the Project Highway is enclosed in alignment plan. Finished road level indicated in the alignment plan shall be followed by the contractor as minimum FRL. In any case, the finished road level of the project highway shall not be less than those indicated in the alignment plan. The contractor shall, however, improve/upgrade the Road profile as indicated in Annex-III based on site/design requirement.
- ii) Traffic Signage plan of the Project Highway showing numbers & location of traffic signs is enclosed. The contractor shall, however, improve/upgrade upon the traffic signage plan as indicated in Annex-III based on site/design requirement as per the relevant specifications/IRC Codes/Manual.

# Annex – IV

(Schedule-A)

# **Environment Clearances**

As per notification of MOEF F.O. 2559(E) dated 22/08/2013, the project will not attract Environmental Clearance.

SCHEDULE - B

(See Clause 2.1)

# DEVELOPMENT OF THE PROJECT HIGHWAY

# 1 Development of the Project Highway

Development of the Project Highway shall include design and construction of the Project Highway as described in this Schedule-B and in Schedule-C.

# 2 Rehabilitation and augmentation

NA

# 3 Specifications and Standards

The Project Highway shall be designed and constructed in conformity with the Specifications and Standards specified in Annex-I of Schedule-D.

Annex I (Schedule-B)

# Description of Two Lanning

#### 1. Widening of the Existing Highway

- (i) The Project Highway shall follow the existing alignment unless otherwise specified by the Authority and shown in the alignment plans specified in Annex-III of Schedule-A. Geometric deficiencies, if any, in the existing horizontal and vertical profiles shall be corrected as per the prescribed standards for hilly terrain to the extent land is available.
- (ii) Width of Carriageway

Two-Lanning with hard shoulders shall be undertaken. The paved carriageway shall be 7(seven) m wide. The work and specifications shall be carried out in accordance with Clause 408 of MoRTH specification.

Provided that in the built-up areas: the width of the carriageway shall be as specified in following table:

Sl. No.	Built-up stretch (Township)	Loca	ition	Width (m)	Typical Cross Section (Refer to Manual)	Remarks
1	Heningkunglwa	163+592	163+700	14	As per attached TCS drawing	10 m Carriageway

Except as otherwise provided in this Agreement the width of the paved carriageway and cross-sectional features shall conform to paragraph 1(ii) above.

# 2. GEOMETRIC DESIGN AND GENERAL FEATURES

(i) General

-

Geometric design and general features of the Project Highway shall be in accordance with Section 2 of the IRC: SP: 73-2018

#### (ii) Design speed

The design speed shall be as per section 2.2 of IRC 73: 2018 for Mountainous and Steep terrain. However in exceptional cases the minimum design speed of 30 km per hour for hilly and mountainous terrain and 20 km per hour for hair pin bend locations shall be adopted in accordance with IRC SP 48:1998.

# (iii) Improvement of the existing road geometrics

In the following sections, where improvement of the existing road geometrics to the prescribed standards is not possible, the existing road geometrics shall be improved to the extent possible within the given right of way and proper road signs and safety measures shall be provided:

#### Probable location of Sharp Curves having speed below 30kmph:

CL No.	Stretch	Domonika
Sl. No.	(from km to km)	Remarks
1	167.323 to 167.343	Design Speed = 20 Kmph
2	168.789 to 168.818	Design Speed = 20 Kmph
3	168.906 to 168.936	Design Speed = 20 Kmph
4	170.018 to 170.044	Design Speed = 20 Kmph
5	170.892 to 170.916	Design Speed = 20 Kmph
6	173.118 to 173.136	Design Speed = 20 Kmph

# (v) Proposed Right of Way

Details of the proposed Right of Way are tabulated below.

The Scheduled date on which the Authority shall provide ROW to the contractor is given in Annexure-II of Schedule  $\mbox{\bf A}$ 

# (v) Type of Shoulders

(a) Hard shoulders of 1.5 m width shall be provided with granular material except in built up areas given in paragraph 1(ii).

(b) Design and specifications of hard shoulders and granular material shall conform to the requirements specified in the section 408 of MoRTH specification

(c) In built-up sections. footpaths shall be provided in the following stretches:

Sl. No.	Stretch	Fully Paved shoulders/footpaths	Peference to cross section	
31. 110.	(from Km to Km)	rully raved siloulders/100tpaths	Reference to cross section	
1	163+592 to 163+700	2 X 1.0 m width Footpath	TCS-12	

# (vi) Lateral and vertical clearances at underpasses

 Lateral and vertical clearances at underpasses and provision of guardrails/crash barriers shall be as per paragraph 2.10 of the IRC:SP:73-2018.

#### ii. Lateral Clearance:

The width of the opening at the underpasses shall be as follows:

Sl.No.	Location (Chainage) (from km to km)	Span/opening(m)	Remarks			
	Nil					

# (vii) Lateral and vertical clearances at overpasses

- i. Lateral and vertical clearances at overpasses shall be as per paragraph 2.11 of the IRC: SP: 73-2018.
- ii. Lateral clearance: The width of the opening at the overpasses shall be as follows:

SI No.	Locat [Chainage From	 Span/Opening (m)	Remarks
J		Nil	

#### (viii) Service roads

Service roads shall be constructed at the locations and for the lengths indicated below:

SI.	Location of So (km		Right Hand Side (RHS) / Left Hand Side (LHS) /	Length (km) of Service
NO.	From	То	Both Sides	Road
Nil				

# (ix) Grade Separated Structures

i. Grade separated structures shall be provided as per paragraph 2.14 of the IRC: SP: 73-2018. The requisite particulars are given below:

Sl. No.	Location of Structure	Length (m)	Number and Length of Spans (m)	Approach Gradient	Remarks, if any
Nil					

ii. In the case of grade separated structures, the type of structure and the level of the Project Highway and the cross roads shall be as follows:

SI No.		Type of	Cı	ross Road	at	Pomarks
	Location	Structure/Length (m)	Existing Level	Raised Level	Lowered Level	Remarks, if any
Nil						

# (x) Cattle and pedestrian underpass / Overpass

Cattle and pedestrian underpass/overpass shall be constructed as follows: [Refer to paragraph 2.14.3 of IRC: SP: 73-2018 and specify the requirements of cattle and pedestrian underpass/overpass.

Sl. No.	Location	Type of Crossing	
Nil			

# (xi) Typical cross-sections of the Project Highway

The cross section schedule shall be as follows:

TCS Number	TCS Description	Length (km)
TCS-1	New Construction of two lane carriageway in rural area with one side retaining wall on Valley side And RR Masonry Trapezoidal Open Drain on Hill Side	0.050
TCS-2	New Construction of two lane carriageway in rural area with Both Side RR Masonry Trapezoidal Open Drain on Hill Section	0.935
TCS-3	New Construction of two lane carriageway in rural area With Breast Wall on Hill Side And RR Masonry Trapezoidal Open Drain on Valley Side	0.150
TCS-5	Reconstruction of Two Lane Carriageway In Rural Area With RR Masonry Trapezoidal Open Drain on Hill Side And Earthen Shoulder on Valley Side	2.120
TCS-6	Reconstruction of Two Lane Carriageway In Rural Area With Both Side RR Masonry Trapezoidal Open Drain on Hill Section	1.850
TCS-7	Reconstruction of Two Lane Carriageway At Reconstruction Stretch In Rural Area With Retaining Wall on Valley Side And RR Masonry Trapezoidal Open Drain on Hill Side	0.630
TCS-9	Reconstruction of Two Lane Carriageway In Rural Area With Breast Wall on Hill Side And RR Masonry Trapezoidal Open Drain on Valley Side	1.115
TCS-11	Reconstruction of Two Lane Carriageway In Rural Area with existing road treated as subgrade	2.025
TCS-12	Reconstruction of Two Lane Carriageway In Built Up Area With Both Side Footpath Cum RCC Rectangular Drain	0.108
TCS-15	New construction of Two Lane Carriageway At Realignment Stretch In Rural Area	0.680
TCS-17	Reconstruction of Two Lane Carriageway In Rural Area With Retaining Wall on valley Side And Earthen Shoulder on other side	0.050
TCS-21	New construction of Two Lane Carriageway In Rural Area With Retaining Wall on valley Side And Earthen Shoulder on other side	0.100
TCS-22	New construction of Two Lane Carriageway Stretch In Rural Area With Both side Breast Wall on Hill Side	0.275
TCS-23	New construction of Two Lane Carriageway In Rural Area With Both side Retaining Wall on valley Side	0.170

# 3. INTERSECTIONS AND GRADE SEPARATORS

#### Introduction

All intersections shall be as per Section3 of the IRC: SP: 73-2018. Existing intersections which are deficient shall be improved to the prescribed standards.

Properly designed intersections shall be provided at the locations and of the types and features given in the tables below:

# (i) At-grade Intersections

# **Major Intersections**

SI. No.	Location of intersection (Km)	Type of intersection	Other features	Remarks
1	163+592	3-Legged	LHS - Towards Sokhuvi Village	At-grade improvement proposed

Details of junction improvements shall be as per IRC SP: 73-2018.

#### Minor Intersections

SI. No.	Location of intersection (Km)	Type of intersection	Other features
1	164.200	Х	4-legged
2	164.350	Υ	3-legged
3	166.130	Υ	3-legged
4	166.350	T	3-legged
5	169.000	Υ	3-legged

Details of junction improvements shall be as per IRC SP: 73-2018.

# (ii) Grade Separated Intersections with/without Ramps

Sl No.	Location (km)	Salient Features	Minimum Length of Viaduct to be Provided (m)	Road to be Carried Over/Under the Structures
Nil				

# 4. ROAD EMBANKMENT AND CUT SECTION

- a. Widening and improvement of the existing road embankment/cuttings and construction of new road embankment/ cuttings shall conform to the Specifications and Standards given in section 4 of the Manual and the specified cross sectional details. Deficiencies in the plan and profile of the existing road shall be corrected.
- b. Rising of the existing road.

The existing road shall be raised in the following sections:

Sl	Section (km)		Length	Extent of	Remarks
No.	From	То	(km)	Raising*	
			Nil		

<sup>\*</sup> Difference between levels at proposed c/l and existing road/ground below proposed c/l

#### 5. PAVEMENT DESIGN

- (i) Pavement design shall be carried out in accordance with section 5 of the IRC: SP: 73-2018.
- (ii) Type of pavement

Flexible pavement shall be adopted for Project Highway. Notwithstanding anything contrary contained in this Agreement or the Manual, the pavement shall be designed as given below

# (iii) Design requirements

Notwithstanding anything to the contrary contained in this agreement or the manual, the contractor shall design the pavement of main carriageway for design traffic of 20 MSA with a minimum design period of 20 years. CBR value as obtained at site shall be taken for design if less than 10%. Maximum value of CBR to be taken for design shall not exceed 10%.

Bituminous Grade VG 30 or VG 40 shall be used for BC

# (iv) Reconstruction / Realignment/ Bypass of sections

The following sections of the existing road shall be reconstructed. These shall be designed as new pavement.

SL NO.	Stretch from Km to Km	Remarks	TCS Type
1	163+592 Km to 163+700 Km	Reconstruction	TCS-12
2	163+700 Km to 164+575 Km	Reconstruction	TCS-11
3	164+575 Km to 164+700 Km	Reconstruction	TCS-7
4	165+000 Km to 165+050 Km	Reconstruction	TCS-17
5	165+350 Km to 166+290 Km	Reconstruction	TCS-11
6	166+290 Km to 166+340 Km	Reconstruction	TCS-7
7	166+340 Km to 166+525 Km	Reconstruction	TCS-5
8	166+525 Km to 166+625 Km	Reconstruction	TCS-7
9	166+625 Km to 166+92 Km	Reconstruction	TCS-6
10	166+920 Km to 166+970 Km	Reconstruction	TCS-7
11	166+970 Km to 167+200 Km	Reconstruction	TCS-6
12	167+200 Km to 167+600 Km	Reconstruction	TCS-9
13	167+650 Km to 168+175 Km	Reconstruction	TCS-6
14	168+175 Km to 168+425 Km	Reconstruction	TCS-9
15	168+425 Km to 168+675 Km	Reconstruction	TCS-6
16	168+675 Km to 168+750 Km	Reconstruction	TCS-7
17	169+100 Km to 169+385 Km	Reconstruction	TCS-5
18	169+385 Km to 169+435 Km	Reconstruction	TCS-7
19	169+435 Km to 169+600 Km	Reconstruction	TCS-5

35	173+010 Km to 173+060 Km	Reconstruction	TCS-5
36	173+300 Km to 173+370 Km	Reconstruction	TCS-7
37	173+425 Km to 173+475 Km	Reconstruction	TCS-7

#### 6. ROAD SIDE DRAINAGE

(i) Drainage system including surface and subsurface drains for the Project Highway shall be provided as per Section 6 of the Manual (IRC: SP: 73-2018). Lined drain of following length shall be provided:

Drain Types	Side	Net length (m)
RR Masonry Trapezoidal Drain	Both/one side	9494 m

(ii) RCC Covered drain shall be provided at following locations:

# **Details of Covered Drains**

Chainage		Side	Net Length	
From(m)	To(m)	Side	(m)	
163592	163700	Both	210.8	
		Total Length=	210.8m	

The length of side drains given above are minimum and it may vary as per site condition. In case of increase of length, no positive change of scope will be payable

# 7. DESIGN OF STRUCTURES

The details of culverts shall be provided by the EPC Contractor and locations are given in Clause 7(ii) of Schedule-B.

All the cross-drainage structures and other structures shall be designed in accordance with the design standards set out in **Schedule-D**.

# (i) Bridges

#### i. General

- a) All bridges, culverts and structures shall be designed and constructed in accordance with section 7 of IRC: SP: 73-2018 and referred other codes therein and shall conform to the cross- sectional features and other details specified therein
- b) Width of the carriageway of new bridges and structures shall be as follows:

SI. No.	Bridge/Structure at km	Width of carriageway and cross-sectional features
		Nil

c) Following structures shall be provided with footpaths:

Sl. No.	Bridge/Structure at km	Width of carriageway and cross-sectional features
		Nil

- d) All bridges shall be high-level bridges.
- e) The following structures shall be designed to carry utility services specified in table below:

SI. No.	Bridge at km	Utility service to be carried	Remarks	
	Nil			

f) Cross-section of the new culverts and bridges at deck level for the Project Highway shall conform to the typical cross-sections of IRC: SP: 73-2018.

# (ii) Culverts

(a) Overall width of all culverts shall be equal to the roadway width of the approaches.

# (b) Reconstruction of existing culverts

The existing culverts at the following locations shall be re-constructed as new culverts:

Sl. No.	Culvert Location(km)	Span/Opening (m)	Remarks*
1	164.474	1 X 2.0 X 2.0	Single Span
2	167.012	1 X 2.0 X 2.0	Single Span
3	169.215	1 X 2.0 X 3.0	Single Span
4	170.026	1 X 2.0 X 3.0	Single Span
5	170.318	1 X 2.0 X 2.0	Single Span
6	170.900	1 X 5.0 X 5.0	Single Span
7	171.326	1 X 2.0 X 2.0	Single Span
8	172.015	1 X 3.0 X 3.0	Single Span
9	172.243	1 X 2.0 X 2.0	Single Span
10	172.305	1 X 2.0 X 3.0	Single Span
11	172.478	1 X 2.0 X 2.0	Single Span
12	172.935	1 X 2.0 X 3.0	Single Span
13	173.125	1 X 2.0 X 2.0	Single Span

<sup>\*</sup> All culverts (excluding the box culverts in cushion) shall be provided with approach slabs on both sides. Moreover upstream and downstream protection works, including chute drains connecting stream with the culvert, catch pits; baffle piers/blocks etc. shall be provided which must be ascertained as per the site conditions and details given in drawings of culvert.

#### (b) New culverts to be constructed

Additional 58 new box/slab culverts shall be constructed as per particulars given in the table below:

#### **BOX CULVERT DETAILS**

Sl. No.	Culvert Location(km)	Span /Opening (m)	Remarks*

Sl. No.	Culvert Location(km)	Span /Opening (m)	Remarks*
1	163.700	1 X 2.0 X 2.0	Single Span
2	164.739	1 X 2.0 X 2.0	Single Span
3	164.979	1 X 2.0 X 2.0	Single Span
4	165.320	1 X 2.0 X 3.0	Single Span
5	165.759	1 X 2.0 X 2.0	Single Span
6	166.042	1 X 2.0 X 2.0	Single Span
7	166.243	1 X 2.0 X 3.0	Single Span
8	166.461	1 X 2.0 X 2.0	Single Span
9	166.834	1 X 2.0 X 2.0	Single Span
10	167.175	1 X 2.0 X 2.0	Single Span
11	167.475	1 X 2.0 X 2.0	Single Span
12	167.642	1 X 2.0 X 2.0	Single Span
13	167.850	1 X 2.0 X 2.0	Single Span
14	168.175	1 X 2.0 X 2.0	Single Span
15	168.475	1 X 2.0 X 2.0	Single Span
16	168.716	1 X 2.0 X 2.0	Single Span
17	168.900	1 X 3.0 X 4.0	Single Span
18	169.103	1 X 2.0 X 3.0	Single Span
19	169.390	1 X 2.0 X 2.0	Single Span
20	169.520	1 X 2.0 X 2.0	Single Span
21	169.650	1 X 2.0 X 2.0	Single Span
22	169.805	1 X 2.0 X 2.0	Single Span
23	169.914	1 X 2.0 X 2.0	Single Span
24	170.547	1 X 2.0 X 2.0	Single Span
25	170.733	1 X 2.0 X 2.0	Single Span
26	171.135	1 X 2.0 X 2.0	Single Span
27	171.600	1 X 2.0 X 2.0	Single Span
28	171.793	1 X 2.0 X 2.0	Single Span
29	172.642	1 X 2.0 X 2.0	Single Span
30	172.820	1 X 5.0 X 5.0	Single Span
31	173.357	1 X 2.0 X 3.0	Single Span
32	173.558	1 X 5.0 X 5.0	Single Span

<sup>\*</sup> Existing chainages of proposed culverts along the realignment section have been left blank.

All culverts (excluding the box culverts in cushion) shall be provided with approach slabs on both sides. Moreover upstream and downstream protection works, including chute drains connecting stream with the culvert, catch pits; baffle piers/blocks etc. shall be provided which must be ascertained as per the site

conditions and details given in drawings of culvert

(d) Repairs/replacements of railing/parapets, flooring and protection. works of the existing culverts shall be undertaken as follows:

Sl. No.	Existing Chainage (km)	Design Chainage (km)	Proposal	Proposed Span	
NIL					

(e) Floor protection works shall be as specified in the relevant IRC Codes and Specifications.

# (iii) Bridges

i. The existing bridges to be reconstructed/widened

SI.	Bridge location	Salient details of existing bridge		Adequacy or otherwise		
No.	(km)	Type of Structures	Span Arrangement and Total Vent way (No. x Length) (m)	of the existing waterway, vertical clearance etc.*	Remarks	
	Nil					

ii. The following structures shall be provided with footpaths:

SI. No.	Location (km)	Remarks			
	NIL				

# iii. Additional New Minor Bridges

New minor bridges at the following locations on the project highways shall be constructed in Package as per manual

SI. No.	Location (km)	Total Length (m)	Remarks. If any
		Nil	

# iv. Additional New Major bridges

Sl. No.	Location Designed (km)	Total Length (m)	Remarks
		NIL	

v. The railings of existing bridges shall be replaced by crash barriers at the following locations:

SI. No.	Location (km)	Remarks				
	Nil					

vi. Repairs/replacements of railings/parapets of the existing bridges shall be undertaken as follows:

Sl. No.	Location (km)	Remarks		
	Nil			

vii. Drainage system for bridge decks

An effective drainage system for bridge decks shall be provided as specified in paragraph 8.21 of the Manual

viii. Structures in marine environment

NIL

# (iv) Rail-road Bridges

(a) Design, construction and detailing of ROB/RUB shall be as specified in section 7 of the Manual

#### (b) Road over-bridges

Road over-bridges (road over rail) shall be provided at the following level crossings, as per GAD drawings attached:

Sl No.	Location of Level Crossing (km)	Length of Bridge (m)
	Nil	

# (c) Road under-bridges

Road under-bridges (road under railway line) shall be provided at the following level crossings, as per GAD drawings attached:

SI. No.	Location of Level crossing (Chainage km)	Number and length of span(m)
	Nil	

# (v) Grade Separated Structures

The grade separated structures shall be provided at the locations and of the type and length specified in paragraphs 2.9 and 3 of this Annex-I.

# **Underpasses/Overpasses**

There is no Underpass/Overpass proposed on the Project Highway.

# (vi) Repairs and strengthening of bridges and structures

The existing bridges and structures to be repaired /strengthened, and the nature and extent of repairs/strengthening required are given below:

# A. Bridges

SI No.	Location of Bridge (km)	Nature and Extent of Repairs/Strengthening to be Carried out				
	Nil					

# B. ROB / RUB

SI No.	Location of Bridge (km)	Nature and Extent of Repairs/Strengthening to be Carried out
		Nil

# C. Overpasses / Underpasses and Other Structures

SI No.	Location of Bridge (km)	Nature and Extent of Repairs/Strengthening to be Carried out
		Nil

#### (vii) List of Major Bridges and Structures

The following is the list of Major Bridges on Package

Sl No.	Location Design (km)	Total Length (m)	Remarks
		NIL	

#### 8. TRAFFIC CONTROL DEVICES AND ROAD SAFETY WORKS

Traffic control devices and road safety works shall be provided inaccordance with Section 9 of IRC: SP:73-2018.

- (a) Traffic Signs: Traffic signs include roadside signs, overhead signs and curb mounted signs along the entire Project Highway shall be provided conforming to IRC 67 and section 800 of MoRTH specification.
- (b) Pavement Marking: Pavement markings shall cover road marking for the entire Project Highway and shall be provided conforming to IRC 35-2015.

The minimum quantity of Traffic Signages, Road Marking and other appurtenances that are to be provided by the contractor is as below:

Sl. No	Traffic Signages, Road Marking and other appurtenances	unit	Quantity
1	Total No of Street Light	Nos	72
2	Kilometre stones	Nos	9
3	5th Kilometre stones	Nos	2
4	Boundary Stones	Nos	104
5	Delineators (100 cm long and circular shaped)	Nos	620
6	Road Stud	Nos	7057
7	900 mm Octagonal	Nos	6
8	600 mm circular	Nos	32
9	900 mm Triangular		128
10	Direction Sign < 0.9 sqm	sqm	24
11	Direction Sign > 0.9 sqm	sqm	14
12	Object Hazard 900 mm x 300 mm rectangular		90
13	Rumble Strip	Nos	4
14	450x600 mm Rectangular plate	Nos	35

Specifications of the reflective sheeting.

Retro reflective sheeting should be of high intensity grade with encapsulated lens or with micro prismatic retro reflective element in accordance with ASTM Standard D 4956-04 shall be provided conforming to section 800 of MoRTH specification

# 9. Roadside Furniture

- (i) Roadside furniture shall be provided in accordance with the provisions of IRC: SP:73-2018.
  - (a) Road Boundary Stone: For the entire Project Highway.
  - (b) Pedestrian: The pedestrian facilities shall include the provision of the;
    - (i) Pedestrian guardrail: Provide pedestrian guardrail at each bus stop location.
    - (ii) Pedestrian Crossings: Provide pedestrian crossing facilities on Junctions.
- (ii) Overhead traffic signs: location and size
  - (c) Full width Overhead signs: Full width Overhead signs shall be provided as below

Sl. No.	Location (Km)	Size	
1	Ch. 173+850 km	16 m X 1.2 m (Double Pole)	

(d) Cantilever Overhead signs: Overhead signs shall be provided as below:

SI. No.	SI. No. Design Chainage	
1	167.220	
2	170.820	

i) Delineators: Delineators for the entire Project Highway shall be provided at the locations as per section 9.4 of IRC SP 73:2018.

# 10. COMPULSORY AFFORESTATION

Minimum 2000 nos. trees are required to be planted.

# 11. HAZARDOUS LOCATIONS

Metal Beam crash barrier of minimum length of 2000 m (single runner, heavy duty and W-shape) shall be provided at the locations of bridge approaches and high embankments (3.0m and more), at sharp curves on both sides of the highway at the locations finalized in consultation with AE. Typical details of metal crash barrier are given in manual. Increase in length if any as per site requirement will not constitute change of scope

Rest of the complete length of the project highway shall have parapetwall as per IRC SP 48:1998.

#### 12. SPECIAL REQUIREMENT FOR HILL ROADS

Refer to section 13 of IRC: SP: 73-2018.

(i) The minimum quantity of protection work may be taken as below:

Type of Protection Work			
Protection Work	Unit	Quantity	
Breast wall (2m height) of RRM in cement mortar	Rm	600	
Breast wall (3m height) of RRM in cement mortar	Rm	600	
Breast wall (4m height) of RRM in cement mortar	Rm	603	
Retaining wall of RRM upto 6m height	Rm	2400	
Gabion Retaining Wall	cum	1000	
Seeding and Mulching with Jute Net	sqm	10000	
Seeding and Mulching with Coir net	sqm	10000	
Hydro seeding	sqm	20000	
Chute for Culvert		At Every Culvert Location	

**Note-** (i) The Contractor shall be responsible for accurate assessment of the actual requirement as per site situation & prepare designs for slope protection & stabilization as per the specifications & standards stipulated in schedule 'D' and submit the same to the AE for review through the proof consultant and implement it accordingly thereafter.

- (ii) Any increase in quantity over and above the minimum qty. as mentioned in above table or through change in specifications will not be considered as change of scope. Therefore contractor shall make thorough investigation at site and assess the requirement of slope protection and slide prone zone and other safety features at his own before submission of bid
- (iii) The length of Retaining Wall shown above is minimum, to be constructed at site for proper geometrics and will not be converted to Breast Wall. Any reduction in the total length of Retaining Wall constructed at site shall constitute of negative change of scope.
- (iv) Entire slope/formation which has been cut apart from the above tabulated lengths shall have to be stabilized by the Contractor using techniques approved by AE.

#### 13. CHANGE OF SCOPE

The length of Structures and bridges specified here in above shall be treated as an approximate assessment. The actual lengths as required on the basis of detailed investigations shall be determined by the Contractor in accordance with the Specifications and Standards. Any variations in the lengths specified in this Schedule- B shall not constitute a Change of Scope save and except any variations in the length arising out of a Change of Scope expressly under taken in accordance with the provisions of Article 13.

# SCHEDULE - C (See Clause 2.1)

# **PROJECT FACILITIES**

# **Project Facilities**

This schedule indicates the minimum spatial and functional requirements of the facilities to be provided on the **Project Highway** (Total length of 10.258 km).

The Contractor shall construct the Project Facilities in accordance with the provisions of this Agreement. Such Project Facilities shall include:

(a) Toll Plaza: Nil

(b) Pedestrian facilities: As described

(c) Tree plantation: 2000 Nos

(d) Bus shelters: 6 Nos

(e) Others to be specified: Nil

**Description of Project Facilities** 

Toll Plaza

NIL

#### **Bus Shelters**

To ensure orderly movement of the through traffic, bus shelters have been proposed outside the residential area, away from bridges, and high embankments and not too close to the road intersections.

Bus shelters shall be provided on the Project Highway at 2 locations as mentioned herein under. Bus shelters shall be constructed as per Manual on both sides of the Project Highway. These bus shelters will also have passenger shelter.

#### Details of Bus shelters

_	il. lo.	Project Facility	Location (km)	Design Requirements	Other Essential Details
:	1	Bus Bay & Passenger shelter	164+100 (Both side)	Bus Bays & Passenger shelter	Dimension of Bus Bay (L X B = 59.0 m X 3.0 m)

			-	
	have be	en place	d on	Dimension of Passenger Shelter
	both	side	of	(L X B = 6.0 m X 2.0 m)
	propose	ed roadwa	ay	(Refer Passenger Shelter
				Drawing)

#### Pedestrian Facilities

Pedestrian facilities shall be provided at the locations of urban sections in order to ensure safety of pedestrians while crossing in consultation with NHIDCL. This should include (a) minimum Zebra Crossing with flashing Beacon or (b) Zebra Crossing with separate pedestrian path or (c) any other provision as approved by AE.

## Landscaping

Landscape treatment of the Project Highway shall be undertaken through planting of trees and ground cover of appropriate varieties and landscaping on surplus land in the ROW. The Construction Contractor should plant at least 2000 nos. of trees of minimum 6 ft. height with tree guard made up of MS sections.

Plantation scheme shall be prepared in consultation with the Forest Department of the Government of Arunachal Pradesh, and AE.

#### **Environment**

The Project Highway during design, construction and maintenance period shall conform to the environmental rules and regulations in force. The Construction Contractor shall be responsible for the same.

**SCHEDULE - D** 

(See Clause 2.1)

## **SPECIFICATIONS AND STANDARDS**

## 1. Construction

The Contractor shall comply with the Specifications and Standards set forth in Annex

- I of this Schedule - D for construction of the Project Highway.

# 2. Design Standards

The Project Highway including Project Facilities shall confirm to design requirements set out in the following documents:

Manual of specification and standards for two laning of Highways with paved shoulder (Second revision) IRC:SP:73-2018, Hill road manual IRC:SP:48-1998 and Specification of roads and bridges work (fifth revision), MoRTH.

Annex - I

(Schedule - D)

Annex - I

(Schedule - D)

## **Specifications and Standards for Construction**

## 1 Specifications and Standards

All materials, works and construction operations shall confirm to the Manual of Specifications and Standards for Two Laning of Highways (IRC: SP: 73 - 2018), referred as the Manual, MORTH Specifications for Road and Bridge Works, and IRC: SP: 48-1998. Where the specification for a work is not given, Good Industry Practice shall be adopted to the satisfaction of the Authority's Engineer.

# 2 Deviations from the Specifications and Standards

The terms 'Concessionaire', 'Independent Engineer' and 'Concession Agreement' used in the Manual (IRC: SP 73- 2018) shall be deemed to be substituted by the terms 'Contractor', 'Authority's Engineer' and 'Agreement' respectively.

Notwithstanding anything to the contrary contained in Paragraph 1 above, the following Specifications and Standards shall apply to the Project Highway, and for purposes of this Agreement, aforesaid Specifications and Standards of following clauses shall be deemed to be amended to the extent set forth below:

S. No.	Clause	Provision as per Manual	Modified Provision
		(IRC:SP:73-2018)	

1	2.2	<b>Design Speed:</b> Ruling or minimum Design speed shall be followed	Design speed shall be 30 km/h for project highway excepting hair pin bend locations wherein design speed shall be 20 km/h. The same is mentioned in the Plan & Profile drawings given in Annexure-III of Schedule A.
2	2.7.2	Roadway Width: On horizontal curves with radius up to 300 m width of pavement and roadway shall be increased as per Table 2.4	On horizontal Curves with radius up to 300 m width of pavement and roadway shall be increased as per Plan & Profile drawings given in Annexure - III of Schedule A
3	2.9.4	Radius of Horizontal Curves:	Radius of Horizontal curves shall be as per the alignment plan shown in Plan and Profile drawings given in Annexure – III of Schedule A

### SCHEDULE - E

(See Clauses 2.1 and 14.2)

### **MAINTENANCE REQUIREMENTS**

#### 1. Maintenance Requirements

The Contractor shall, at all times maintain the Project Highway in accordance with the provisions of this Agreement, Applicable Laws and Applicable Permits.

The Contractor shall repair or rectify any Defect or deficiency set forth in Paragraph 2 of this Schedule-E within the time limit specified therein and any failure in this behalf shall constitute non-fulfilment of the Maintenance obligations by the Contractor. Upon occurrence of any breach hereunder, the Authority shall be entitled to effect reduction in monthly lump sum payment as set forth in Clause 14.6 of this Agreement, without prejudice to the rights of the Authority under this Agreement, including Termination thereof.

All Materials, works and construction operations shall conform to the MORTH Specifications for Road and Bridge Works, and the relevant IRC publications. Where the specifications for a work are not given, Good Industry Practice shall be adopted.

## 2.Repair/Rectification of Defects and Deficiencies

The obligations of the Contractor in respect of Maintenance Requirements shall include repair and rectification of the Defects and deficiencies specified in Annex - I of this Schedule-E within the time limit set forth therein.

### 3. Other Defects and Deficiencies

In respect of any Defect or deficiency not specified in Annex - I of this Schedule-E, the Authority's Engineer may, in conformity with Good Industry Practice, specify the permissible limit of deviation or deterioration with reference to the Specifications and Standards, and any deviation or deterioration beyond the permissible limit shall be repaired or rectified by the Contractor within the time limit specified by the Authority's Engineer.

### 4. Extension of Time Limit

Notwithstanding anything to the contrary specified in this Schedule-E, if the nature and extent of any Defect or deficiency justifies more time for its repair or rectification than the time specified herein, the Contractor shall be entitled to additional time in conformity with Good Industry Practice. Such additional time shall be determined by the Authority's Engineer and conveyed to the Contractor and the Authority with reasons thereof.

#### 5. Emergency Repairs/Restoration

Notwithstanding anything to the contrary contained in this Schedule-E, if any Defect, deficiency or deterioration in the Project Highway poses a hazard to safety or risk of damage to property, the Contractor shall promptly take all reasonable measures for eliminating or minimizing such danger.

#### 6. Daily inspection by the Contractor

The Contractor shall, through its engineer, undertake a daily visual inspection of the Project Highway and maintain a record thereof in a register to be kept in such form and manner as the Authority's Engineer may specify. Such record shall be kept in safe custody of the Contractor and shall be open to inspection by the Authority and the Authority's Engineer at any time during office hours.

## 7. Pre-monsoon Inspection / Post-monsoon Inspection

The Contractor shall carry out a detailed pre-monsoon inspection of all bridges, culverts and drainage system before [1st June] every year in accordance with the guidelines contained in IRC: SP35. Report of this inspection together with details of proposed maintenance works as required on the basis of this inspection shall be sent to the Authority's Engineer before the [10th June] every year. The Contractor shall complete the required repairs before the onset of the monsoon and send to the Authority's Engineer a compliance report. Post monsoon inspection shall be done by the [30th September] and the inspection report together with details of any damages observed and proposed action to remedy the same shall be sent to the Authority's Engineer.

### 8. Repairs on account of natural calamities

All damages occurring to the Project Highway on account of a Force Majeure Event or default or neglect of the Authority shall be undertaken by the Authority at its own cost. The Authority may instruct the Contractor to undertake the repairs at the rates agreed between the Parties.

# Annex - I

# (Schedule-E)

# Repair/rectification of Defects and Deficiencies

The Contractor shall repair and rectify the Defects and deficiencies specified in this Annex-I of Schedule-E within the time limit set forth in the table below.

	Nature of Defect or deficiency	Time limit for repair/rectification			
ROADS					
(a)	Carriageway and paved shoulders

# SCHEDULE - G (See Clauses 7.1.1, 7.5.3 and 19.2)

# FORM OF BANK GUARANTEE

Annex-I
(See Clause 7.1.1)
Performance Security

The Managing Director,
National Highways & Infrastructural Development Corporation Ltd.
PTI Building, 3<sup>rd</sup> Floor,
4, Parliament Street
New Delhi - 110001

#### WHEREAS:

[name and address of contractor] (hereinafter called the "Contractor") and Managing Director, NHIDCL, PTI Building, 3<sup>rd</sup> Floor, 4, Parliament Street, New Delhi-110001(hereinafter called the "Authority") have entered into an agreement (hereinafter called the "Agreement") for the Construction of 2 Laning with Hard Shoulder of Peren - Dimapur section on NH - 129A from Design Km 163.592 to Km 173.850 (Length - 10.258 Km) in the state of Nagaland on EPC mode (Pkg - IV) under NH (O) - TSP

, subject to and in accordance with the provisions of the Agreement

- A. The Agreement requires the Contractor to furnish a Performance Security for due and faithful performance of its obligations, under and in accordance with the Agreement, during the {Construction Period/ Defects Liability Period and Maintenance Period} (as defined in the Agreement) in a sum of Rs..... cr. (Rupees .............. crore) (the "Guarantee Amount").
- B. We, ...... through our branch at ...... (the "Bank") have agreed to furnish this bank guarantee (hereinafter called the "Guarantee") by way of Performance Security.

NOW, THEREFORE, the Bank hereby, unconditionally and irrevocably, guarantees and affirms as follows:

1. The Bank hereby unconditionally and irrevocably guarantees the due and faithful performance of the Contractor's obligations during the {Construction Period/Defects Liability Period and Maintenance Period} under and in accordance with the Agreement, and agrees and undertakes to pay to the Authority, upon its mere first

written demand, and without any demur, reservation, recourse, contest or protest, and without any reference to the Contractor, such sum or sums up to an aggregate sum of the Guarantee Amount as the Authority shall claim, without the Authority being required to prove or to show grounds or reasons for its demand and/or for the sum specified therein.

- 2. A letter from the Authority, under the hand of an officer not below the rank of [General Manager in the National Highways & Infrastructural Development Corporation Ltd], that the Contractor has committed default in the due and faithful performance of all or any of its obligations under and in accordance with the Agreement shall be conclusive, final and binding on the Bank. The Bank further agrees that the Authority shall be the sole judge as to whether the Contractor is in default in due and faithful performance of its obligations during and under the Agreement and its decision that the Contractor is in default shall be final and binding on the Bank, notwithstanding any differences between the Authority and the Contractor, or any dispute between them pending before any court, tribunal, arbitrators or any other authority or body, or by the discharge of the Contractor for any reason whatsoever.
- 3. In order to give effect to this Guarantee, the Authority shall be entitled to act as if the Bank were the principal debtor and any change in the constitution of the Contractor and/or the Bank, whether by their absorption with any other body or corporation or otherwise, shall not in any way or manner affect the liability or obligation of the Bank under this Guarantee.
- 4. It shall not be necessary, and the Bank hereby waives any necessity, for the Authority to proceed against the Contractor before presenting to the Bank its demand under this Guarantee.

- 5. The Authority shall have the liberty, without affecting in any manner the liability of the Bank under this Guarantee, to vary at any time, the terms and conditions of the Agreement or to extend the time or period for the compliance with, fulfilment and/ or performance of all or any of the obligations of the Contractor contained in the Agreement or to postpone for any time, and from time to time, any of the rights and powers exercisable by the Authority against the Contractor, and either to enforce or forbear from enforcing any of the terms and conditions contained in the Agreement and/or the securities available to the Authority, and the Bank shall not be released from its liability and obligation under these presents by any exercise by the Authority of the liberty with reference to the matters aforesaid or by reason of time being given to the Contractor or any other forbearance, indulgence, act or omission on the part of the Authority or of any other matter or thing whatsoever which under any law relating to sureties and guarantors would but for this provision have the effect of releasing the Bank from its liability and obligation under this Guarantee and the Bank hereby waives all of its rights under any such law.
- 6. This Guarantee is in addition to and not in substitution of any other guarantee or security now or which may hereafter be held by the Authority in respect of or relating to the Agreement or for the fulfilment, compliance and/or performance of all or any of the obligations of the Contractor under the Agreement.
- 7. Notwithstanding anything contained hereinbefore, the liability of the Bank under this Guarantee is restricted to the Guarantee Amount and this Guarantee will remain in force for the period specified in paragraph 8 below and unless a demand or claim in writing is made by the Authority on the Bank under this Guarantee all rights of the Authority under this Guarantee shall be forfeited and the Bank shall be relieved from its liabilities hereunder.
- 8. The Guarantee shall cease to be in force and effect on \*\*\*\*. Unless a demand or claim under this Guarantee is made in writing before expiry of the Guarantee, the Bank shall be discharged from its liabilities hereunder.
- 9. The Bank undertakes not to revoke this Guarantee during its currency, except with the previous express consent of the Authority in writing, and declares and warrants that it has the power to issue this Guarantee and the undersigned has full powers to do so on behalf of the Bank.

Sinsert date being 2 (two) years from the date of issuance of this Guarantee (in accordance with Clause 7.2 of the Agreement).

- 10. Any notice by way of request, demand or otherwise hereunder may be sent by post addressed to the Bank at its above referred branch, which shall be deemed to have been duly authorised to receive such notice and to effect payment thereof forthwith, and if sent by post it shall be deemed to have been given at the time when it ought to have been delivered in due course of post and in proving such notice, when given by post, it shall be sufficient to prove that the envelope containing the notice was posted and a certificate signed by an officer of the Authority that the envelope was so posted shall be conclusive.
- 11. This Guarantee shall come into force with immediate effect and shall remain in force and effect for up to the date specified in paragraph 8 above or until it is released earlier by the Authority pursuant to the provisions of the Agreement.
- 13. Bank Guarantee has been sent to authority's bank through SFMS gateway as per the details below: -

Annex – III (Schedule - G) (See Clause 19.2)

## Form for Guarantee for Advance Payment

The Managing Director,
National Highways & Infrastructural Development Corporation Ltd.
PTI Building, 3<sup>rd</sup> Floor,
4, Parliament Street
New Delhi - 110001

#### WHEREAS:

- (A) [name and address of contractor] (hereinafter called the "Contractor") has executed an agreement (hereinafter called the "Agreement") with the Managing Director, Head Office New Delhi (hereinafter called the "Authority") have entered into an agreement (hereinafter called the "Agreement") for the Construction of 2 Laning with Hard Shoulder of Peren Dimapur section on NH 129A from Design Km 163.592 to Km 173.850 (Length 10.258 Km) in the state of Nagaland on EPC mode (Pkg IV) under NH (O) TSP subject to and in accordance with the provisions of the Agreement.
- (B) In accordance with Clause 19.2 of the Agreement, the Authority shall make to the Contractor an interest free advance payment (herein after called "Advance Payment") equal to 10% (ten per cent) of the Contract Price; and that the Advance Payment shall be made in three installments subject to the Contractor furnishing an irrevocable and unconditional guarantee by a scheduled bank for an amount equivalent to 110% (one hundred and ten percent) of such installment to remain effective till the complete and full repayment of the installment of the Advance Payment as security for compliance with its obligations in accordance with the Agreement. The amount of {first/second/third} installment of the Advance Payment is Rs. ------cr. (Rupees ------ crore) and the amount of this Guarantee is Rs------- cr. (Rupees crore)(the "Guarantee Amount")\*.

<sup>&</sup>lt;sup>5</sup>The Guarantee Amount should be equivalent to 110% of the value of the applicable instalment.

(C) We, ...... through our branch at..... (the "Bank") have agreed to furnish this bank guarantee (hereinafter called the "Guarantee") for the Guarantee Amount.

NOW, THEREFORE, the Bank hereby, unconditionally and irrevocably, guarantees and affirms as follows:

- 1. The Bank hereby unconditionally and irrevocably guarantees the due and faithful repayment on time of the aforesaid instalment of the Advance Payment under and in accordance with the Agreement, and agrees and undertakes to pay to the Authority, upon its mere first written demand, and without any demur, reservation, recourse, contest or protest, and without any reference to the Contractor, such sum or sums up to an aggregate sum of the Guarantee Amount as the Authority shall claim, without the Authority being required to prove or to show grounds or reasons for its demand and/or for the sum specified therein.
- 2. A letter from the Authority, under the hand of an officer not below the rank of [General Manager in the National Highways & Infrastructural Development Corporation Ltd], that the Contractor has committed default in the due and faithful performance of all or any of its obligations for the repayment of the instalment of the Advance Payment under and in accordance with the Agreement shall be conclusive, final and binding on the Bank. The Bank further agrees that the Authority shall be the sole judge as to whether the Contractor is in default in due and faithful performance of its obligations during and under the Agreement and its decision that the Contractor is in default shall be final and binding on the Bank, notwithstanding any differences between the Authority and the Contractor, or any dispute between them pending before any court, tribunal, arbitrators or any other authority or body, or by the discharge of the Contractor for any reason whatsoever.
- 3. In order to give effect to this Guarantee, the Authority shall be entitled to act as if the Bank were the principal debtor and any change in the constitution of the Contractor and/or the Bank, whether by their absorption with any other body or corporation or otherwise, shall not in any way or manner affect the liability or obligation of the Bank under this Guarantee.
- 4. It shall not be necessary, and the Bank hereby waives any necessity, for the Authority to proceed against the Contractor before presenting to the Bank its demand under this Guarantee.

- 5. The Authority shall have the liberty, without affecting in any manner the liability of the Bank under this Guarantee, to vary at any time, the terms and conditions of the Advance Payment or to extend the time or period of its repayment or to postpone for any time, and from time to time, any of the rights and powers exercisable by the Authority against the Contractor, and either to enforce or forbear from enforcing any of the terms and conditions contained in the Agreement and/or the securities available to the Authority, and the Bank shall not be released from its liability and obligation under these presents by any exercise by the Authority of the liberty with reference to the matters aforesaid or by reason of time being given to the Contractor or any other forbearance, indulgence, act or omission on the part of the Authority or of any other matter or thing whatsoever which under any law relating to sureties and guarantors would but for this provision have the effect of releasing the Bank from its liability and obligation under this Guarantee and the Bank hereby waives all of its rights under any such law.
- 6. This Guarantee is in addition to and not in substitution of any other guarantee or security now or which may hereafter be held by the Authority in respect of or relating to the Advance Payment.
- 7. Notwithstanding anything contained hereinbefore, the liability of the Bank under this Guarantee is restricted to the Guarantee Amount and this Guarantee will remain in force for the period specified in paragraph 8 below and unless a demand or claim in writing is made by the Authority on the Bank under this Guarantee all rights of the Authority under this Guarantee shall be forfeited and the Bank shall be relieved from its liabilities hereunder.
- 8. The Guarantee shall cease to be in force and effect on \*\*\*\*. Unless a demand or claim under this Guarantee is made in writing on or before the aforesaid date, the Bank shall be discharged from its liabilities hereunder.
- 9. The Bank undertakes not to revoke this Guarantee during its currency, except with the previous express consent of the Authority in writing, and declares and warrants that it has the power to issue this Guarantee and the undersigned has full powers to do so on behalf of the Bank.

<sup>\$</sup> Insert a date being 90 (ninety) days after the end of one year from the date of payment of the Advance payment to the Contractor (in accordance with Clause 19.2 of the Agreement).

- 10. Any notice by way of request, demand or otherwise hereunder may be sent by post addressed to the Bank at its above referred branch, which shall be deemed to have been duly authorised to receive such notice and to effect payment thereof forthwith, and if sent by post it shall be deemed to have been given at the time when it ought to have been delivered in due course of post and in proving such notice, when given by post, it shall be sufficient to prove that the envelope containing the notice was posted and a certificate signed by an officer of the Authority that the envelope was so posted shall be conclusive.
- 11. This Guarantee shall come into force with immediate effect and shall remain in force and effect up to the date specified in paragraph 8 above or until it is released earlier by the Authority pursuant to the provisions of the Agreement.

Procedure of estimating the value of work done

Road works

Procedure for estimating the value of road work done shall be as follows:

Table 1.3.1

Stage of Payment	Percentage weightage	Payment Procedure
A- Widening & Strengthening of road		Unit of measurement is linear length.
(1)Earthwork up to top of the sub-grade	18.93%	Payment of each stage shall be made on pro rata basis on completion of stage in a length of not less than 500 m (measured in full width) or 1000 m (measured in half width), provided an aggregate length of execution in half width should not exceed 2 Km at a time. This payment procedure shall be applicable for road having carriageway width up to two lane standards only.  Note: Weightage of half-width shall be 50% of full width.  In case of Hill Cutting, the payment procedure will be as under: Hill Cutting: 40 % of weightage of A (1) Preparation of Sub grade: 60 % weightage of A(1).
(3) Sub-base Course	15.22%	Unit of measurement is linear length.
(4) Non bituminous Base course	12.65%	Payment of each stage shall be made on pro
(5) Bituminous Base course (6) Wearing Coat	9.92% 5.85%	rata basis on completion of stage in a length of not less than 500 m (measured in full width) or 1000 m (measured in half width), provided an aggregate length of execution in half width should not exceed 2 Km at a time. This payment procedure shall be applicable for road having carriageway width up to two lane standards only.  Note: Weightage of half-width shall be 50% of full width.
(7) Widening and repair of culverts	[Nil]	Cost of ten completed culverts shall be determined on pro rata basis with respect to the total number of culverts. The payment shall be made on the completion of at least five culverts.
B.1- Reconstruction/New2-Lane Realignment/Bypass (Flexible Pavement)		
(1)Earthwork up to top of the sub-grade	6.08%	Unit of measurement is linear length. Payment of each stage shall be made on pro rata basis on completion of stage in a length of not less than 500 m. In case of Hill Cutting, the payment procedure will be as under:

under MT (O) - 13F		Hill Cutting: 40 % of weightage of A (1) Preparation of Sub grade: 60 % weightage of A(1).
(3) Sub-base Course	1.90%	
(4) Non bituminous Base course	1.61%	Unit of measurement is linear length.
(5) Bituminous Base course	1.26%	Payment of each stage shall be made on
(6) Wearing Coat	0.74%	pro rata basis on completion of stage in a length of not less than 500 m
(7) Widening and repair of culverts		Unit of measurement is linear length. Payment of each stage shall be made on pro rata basis on completion of a stage in a length of not less than 5(five) percent of the total length.
B.2- Reconstruction/New 8-Lane Realignment/Bypass(Rigid Pavement)		
(1)Earthwork up to top of the sub-grade	[Nil]	Unit of measurement is linear length. Payment of each stage shall be made on pro rata basis on completion of a stage in a length of not less than 500 m. In case of Hill Cutting, the payment procedure will be as under: Hill Cutting: 40 % of weightage of A (1) Preparation of Sub grade: 60 % weightage of A(1).
(2) Sub-base Course	[Nil]	
(3) Dry Lean Concrete (DLC) Course	[Nil]	
(4) Pavement Quality Control (PQC) Course	[Nil]	Unit of measurement is linear length.  Payment of each stage shall be made on pro rata basis on completion of a stage in a length of not less than 500 m
C.1- Reconstruction/New Service Road/ Slip Road (Flexible Pavement)		
(1)Earthwork up to top of the sub-grade	[Nil]	Unit of measurement is linear length. Payment of each stage shall be made on pro rata basis on completion of a stage in a length of not less than 500 m. In case of Hill Cutting, the payment procedure will be as under: Hill Cutting: 40 % of weightage of A (1) Preparation of Sub grade: 60 % weightage of A(1).
(2) Sub-base Course	[Nil]	
(3) Non bituminous Base course	[Nil]	Unit of measurement is linear length.
(4) Bituminous Basecourse	[Nil]	Payment of each stage shall be made on
(5) Wearing Coat	[Nil]	pro rata basis on completion of a stage in a length of not less than 500 m
C.2- Reconstruction/New Service road (Rigid Pavement)		

(1)Earthwork up to top of the sub-grade	[Nil]	Unit of measurement is linear length. Payment of each stage shall be made on pro rata basis on completion of a stage in a length of not less than 500 m. In case of Hill Cutting, the payment procedure will be as under: Hill Cutting: 40 % of weightage of A (1) Preparation of Sub grade: 60 % weightage of A(1).
(2) Sub-base Course	[Nil]	Unit of measurement is linear length.
(3) Dry Lean Concrete (DLC)Course	[Nil]	Payment of each stage shall be made on
(4) Pavement Quality Control (PQC) Course	[Nil]	pro rata basis on completion of a stage in a length of not less than 500 m
D- Reconstruction &New Culverts on existing road, realignments, bypasses		Cost of each culvert shall be determined on pro rata basis with respect to the total no. of
Culverts (length <6m)	25.84%	culverts. Payment shall be made on the completion of atleast 01 (One) culvert.

(2)	Payment shall be made on the	
	completion of at least one culverts	

@ For example, if the total length of bituminous work to be done is 100 km, the cost per km of bituminous work shall be determined as follows:

Cost per km =  $P \times Weightage$  for road work x weightage for bituminous work x (1/L)

Where,

P = Contract Price

L = Total length in km

Similarly, the rates per km for other stages shall be worked out accordingly.

Note: The length affected due to law and order problems or litigation during execution due to which the Contractor is unable to execute the work, may be deducted from the total project length for payment purposes. The total length calculated here is only for payment purposes and will not affect and referred in other clauses of the Contract Agreement.

Minor Bridges and Underpasses/Overpasses.

Procedure for estimating the value of Minor bridge and Underpasses/Overpasses shall be as stated in table 1.3.2:

Table 1.3.2

Stage of Payment	Weightage	Payment Procedure
1	2	3
A.1-Widening and repairs of Minor Bridges(length>6m&<60m)  A.2- New Minor Bridges (length > 6m &	[Nil]	Cost of each minor bridge shall be determined on pro-rata basis with respect to the total linear length of the minor bridges. Payment shall be made on the completion of widening & repair works of a minor bridge
< 60m) (1)Foundation + Sub-Structure: On completion of the foundation work including foundations for wing and return walls, abutments, piers up to the abutment/pier cap.	[Nil]	Foundation + substructure: Cost of each minor bridge shall be determined on pro- rata basis with respect to the total linear length (m) of the minor bridges. Payment against foundation + sub-structure shall be made on pro-rata basis on completion of a stage i.e. not less than 25% of the scope of foundation + sub structure of each bridge subject to completion of at least two foundations along with substructure upto abutment / pier cap level of each bridge  In case where load testing is required for foundation, the

(6) Road side Plantation including Horticulture in Wayside Amenities	0.02%	Payment shall be made on pro-rata basis for completed facilities.
(7) Repair of Protection Works other than approaches to the bridges, elevated sections/flyover/grade separators and ROBs/ RUBs	[Nil]	Unit of measurement is linear length. Payment shall be made on pro-rata basis on completion of a stage in a length of not less than 05% (ten percent) of the total length.
(8) Safety and traffic management during construction	[Nil]	Payment shall be made on prorate basis every six months.
(9) Protection Works		
(a) Retaining Wall	19.44%	Unit of measurement is linear length. Payment
(b) Breast Wall	24.49%	shall be made on pro rata basis on completion of
(c) Gabion Retaining wall	2.00%	a stage in a length of not less than 5% (Five
(d) Metal Crash Barrier and Parapet wall	2.00%	per cent) of the total length.
(10) Site Clearance & Dismantling	2.65 %	
11) Hydro seeding	3.45 %	

# 2. Procedure for payment for Maintenance

The cost for maintenance shall be as stated in Clause 14.1.1.

Payment for Maintenance shall be made in quarterly instalments in accordance with the provisions of Clause 19.7.

# SCHEDULE - I (See Clause 10.2.4)

# **DRAWINGS**

# 1 Drawings

In compliance of the obligations set forth in Clause 10.2 of this Agreement, the Contractor shall furnish to the Authority's Engineer, free of cost, all Drawings listed in Annex-I of this Schedule-I.

# 2 Additional Drawings

If the Authority's Engineer determines that for discharging its duties and functions under this Agreement, it requires any drawings other than those listed in Annex-I, it may by notice require the Contractor to prepare and furnish such drawings forthwith. Upon receiving a requisition to this effect, the Contractor shall promptly prepare and furnish such drawings to the Authority's Engineer, as if such drawings formed part of Annex-I of this Schedule-I.

# Annex - I (Schedule - I)

# **List of Drawings**

[Note: The Authority shall describe in this Annex-I, all the Drawings that the Contractor is required to furnish under Clause 10.2.]

- 1. A minimum list of the drawings of the various components/elements of the project highway and project facility required to be submitted by the Contractor is given below:
  - (a) Drawing of plan, profile and cross sections
  - (b) Drawings of cross drainage works
  - (c) Drawings of junctions
  - (d) Drawing of typical cross sections
  - (e) Drawings of bus-bay and bus shelters with furniture and drainage system
  - (f) Drawing of a truck parking lay bye with furniture and drainage system
  - (g) Drawings of road furniture items including traffic signage, marking, safety barriers, etc.
  - (h) Drawings of traffic diversions plans and traffic control measures
  - (i) Drawings of road drainage measures
  - (j) Drawings of typical details slope protection measures

# Schedule - J

(See Clause 10.3 (ii))

#### **Project Completion Schedule**

#### 1. Project Completion Schedule

During Construction period, the Contractor shall comply with the requirements set forth in this Schedule-J for each of the Project Milestones and the **Scheduled Completion Date**. Within 15 (fifteen) days of the date of each Project Milestone, the Contractor shall notify the Authority of such compliance along with necessary particulars thereof.

# 2. Project Milestone-I

- (i) Project Milestone-I shall occur on the date falling on the [255<sup>th</sup>] day from the Appointed Date (the "Project Milestone-I").
- (ii) Prior to the occurrence of Project Milestone-I, the Contractor shall have commenced construction of the Project Highway and submitted to the Authority duly and validly prepared Stage Payment Statements for an amount not less than 10% (ten per cent) of the Contract Price.

# 3. Project Milestone-II

- (i) Project Milestone-II shall occur on the date falling on the **[438**<sup>th</sup> **]** day from the Appointed Date (the "**Project Milestone-II**").
- (ii) Prior to the occurrence of Project Milestone-II, the Contractor shall have continued with construction of the Project Highway and submitted to the Authority duly and validly prepared Stage Payment Statements for an amount not less than 35% (thirty five per cent) of the ContractPrice and should have started construction of all bridges

#### 4. Project Milestone-III

- (i) Project Milestone-III shall occur on the date falling on the **[621** st] day from the AppointedDate (the "**Project Milestone-III**").
- (ii) Prior to the occurrence of Project Milestone-III, the Contractor shall have continued with construction of the Project Highway and submitted to the Authority duly and validly prepared Stage Payment Statements for an amount not less than 70% (seventy per cent) of the Contract Price and **should have** started construction of all project facilities.

#### 5. Scheduled Completion Date

- (i) The Scheduled Completion Date shall occur on the [730th] day from the Appointed Date.
- (ii) On or before the Scheduled Completion Date, the Contractor shall have completed construction in accordance with this Agreement.

# 6. Extension of time

Upon extension of any or all of the aforesaid Project Milestones or the Scheduled Completion Date, as the case may be, under and in accordance with the provisions of this Agreement, the Project Completion Schedule shall be deemed to have been amended accordingly.

SCHEDULE - K (See Clause 12.1.2)

# **TESTS ON COMPLETION**

#### 1 Schedule for Tests

The Contractor shall, no later than 30 (thirty) days prior to the likely completion of construction, notify the Authority's Engineer and the Authority of its intent to subject the Project Highway to Tests, and no later than 10 (ten) days prior to the actual date of Tests, furnish to the Authority's Engineer and the Authority detailed inventory and particulars of all works and equipment forming part of Works.

The Contractor shall notify the Authority's Engineer of its readiness to subject the Project Highway to Tests at any time after 10 (ten) days from the date of such notice, and upon receipt of such notice, the Authority's Engineer shall, in consultation with the Contractor, determine the date and time for each Test and notify the same to the Authority who may designate its representative to witness the Tests. The Authority's Engineer shall thereupon conduct the Tests itself or cause any of the Tests to be conducted in accordance with Article 12 and this Schedule-K.

# 2 Tests

Visual and physical test: The Authority's Engineer shall conduct a visual and physical check of construction to determine that all works and equipment forming part thereof conform to the provisions of this Agreement. The physical tests shall include (to be decided in consultation with Authority's Engineer as per relevant IRC codes/manual).

Riding quality test: Riding quality of each lane of the carriageway shall be checked with the help of a calibrated bump integrator and the maximum permissible roughness for purposes of this Test shall be 2,000 (two thousand) mm for each kilometre.

Tests for bridges: All major and minor bridges shall be subjected to the rebound hammer and ultrasonic pulse velocity tests, to be conducted in accordance with the procedure described in Special Report No. 17: 1996 of the IRC Highway Research Board on Non-destructive Testing Techniques, at two spots in every span, to be chosen at random by the Authority's Engineer. Bridges with a span of 15 (fifteen) metres or more shall also be subjected to load testing.

Other tests: The Authority's Engineer may require the Contractor to carry out or cause to be carried additional tests, in accordance with Good Industry Practice, for determining the compliance of the Project Highway with Specifications and Standards.

Environmental audit: The Authority's Engineer shall carry out a check to determine conformity of the Project Highway with the environmental requirements set forth in Applicable Laws and Applicable Permits.

Safety Audit: The Authority's Engineer shall carry out, or cause to be carried out, a safety audit to determine conformity of the Project Highway with the safety requirements and Good Industry Practice.

# 3 Agency for conducting Tests

All Tests set forth in this Schedule-K shall be conducted by the Authority's Engineer or such other agency or person as it may specify in consultation with the Authority.

# 4 Completion Certificate

Upon successful completion of Tests, the Authority's Engineer shall issue the Completion Certificate in accordance with the provisions of Article 12

# SCHEDULE - L (See Clause 12.2 and 12.4)

# PROVISIONAL CERTIFICATE

# SCHEDULE - M (See Clauses 14.6, 15.2 and 19.7)

# PAYMENT REDUCTION FOR NON-COMPLIANCE

# 1. Payment reduction for non-compliance with the Maintenance Requirements

Monthly lump sum payments for maintenance shall be reduced in the case of non-compliance with the Maintenance Requirements set forth in Schedule-E.

Any deduction made on account of non-compliance with the Maintenance Requirements shall not be paid even after compliance subsequently. The deductions shall continue to be made every month until compliance is done.

The Authority's Engineer shall calculate the amount of payment reduction on the basis of weightage in percentage assigned to non-conforming items as given in Paragraph 2.

#### 2. Percentage reductions in lump sum payments

The following percentages shall govern the payment reduction:

S. No.	Item/Defect/Deficiency	Percentage
(a)	Carriageway/Pavement	
(i)	Potholes, cracks, other surface defects	15%
(ii)	Repairs of Edges, Rutting	5%
(b)	Road, Embankment, Cuttings, Shoulders	
(i)	Edge drop, inadequate crossfall, undulations, settlement, potholes, ponding, obstructions	10%
(ii)	Deficient slopes, raincuts, disturbed pitching, vegetation growth, pruning of trees	5%
(c)	Bridges and Culverts	
(i)	Desilting, cleaning. vegetation growth, damaged pitching, flooring, parapets, wearing course, footpaths, any damage to foundations	20%
S. No.	Item/Defect/Deficiency	Percentage
(ii)	Any Defects in superstructures, bearings and sub-structures	10%
(iii)	Painting, repairs/replacement kerbs, railings, parapets, guideposts/crash barriers	5%
(d)	Roadside Drains	
(i)	Cleaning and repair of drains	5%

(e)	Road Furniture	
(i)	Cleaning, painting, replacement of road signs, delineators, road markings, 200 m/km/5 <sup>th</sup> km stones	5%
(f)	Miscellaneous Items	
(i)	Removal of dead animals, broken down/accidental vehicles, fallen trees, road blockades or malfunctioning of mobile crane	10%
(ii)	Any other Defects in accordance with paragraph 1.	5%
(g)	Defects in Other Project Facilities	5%

The amount to be deducted from monthly lump-sum payment for non-compliance of particularitem shall be calculated as under:

 $R=P/IOO \times M \times L1/L$ 

Where P = Percentage of particular item/Defect/deficiency for deduction

M = Monthly lump-sum payment in accordance with the Bid

L1 = Non-complying length

L = Total length of the road,

R = Reduction (the amount to be deducted for non-compliance for a particular item/Defect/deficiency

The total amount of reduction shall be arrived at by summation of reductions for such items/Defects/deficiency or non-compliance.

For any Defect in a part of one kilometer, the non-conforming length shall be taken as one kilometer.

# SCHEDULE - N (See Clause 18.1.1)

# SELECTION OF AUTHORITY'S ENGINEER

# 1 Selection of Authority's Engineer

The provisions of the Model Request for Proposal for Selection of Technical Consultants, issued by the Ministry of Finance in May 2009, or any substitute thereof shall apply forselection of an experienced firm to discharge the functions and duties of an Authority's Engineer.

In the event of termination of the Technical Consultants appointed in accordance with the provisions of Paragraph 1.1, the Authority shall appoint another firm of Technical Consultants forthwith and may engage a government-owned entity in accordance with the provisions of Paragraph 3 of this Schedule-N.

#### 2 Terms of Reference

The Terms of Reference for the Authority's Engineer (the "**TOR**") shall substantially conform with Annex 1 to this Schedule N.

#### 3 Appointment of Government entity as Authority's Engineer

Notwithstanding anything to the contrary contained in this Schedule, the Authority may in its discretion appoint a government-owned entity as the Authority's Engineer; provided that such entity shall be a body corporate having as one of its primary functions the provision of consulting, advisory and supervisory services for engineering projects; provided further that a government-owned entity which is owned or controlled by the Authority shall not be eligible for appointment as Authority's Engineer.

# Annex - I

(Schedule - N)

# TERMS OF REFERENCE FOR AUTHORITY'S ENGINEER

# 1 Scope

These Terms of Reference (the "TOR") for the Authority's Engineer are being specified pursuant to the EPC Agreement dated .................. (the "Agreement), which has been entered into between the National Highways and Infrastructure Development Corporation Ltd, 3rd Floor, PTI Building, 4, Parliament Street, New Delhi – 110001the "Authority") and (the "Contractor") Construction of 2 Laning with Hard Shoulder of Peren - Dimapur section on NH - 129A from Design Km 163.592 to Km 173.850 (Length - 10.258 Km) in the state of Nagaland on EPC mode (Pkg - IV) under NH

(O) - TSP and a copy of which is annexed hereto and marked as Annex-A to form part of this TOR.

The TOR shall apply to construction and maintenance of the Project Highway.

# 2 Definitions and interpretation

The words and expressions beginning with or in capital letters and not defined herein but defined in the Agreement shall have, unless repugnant to the context, the meaning respectively assigned to them in the Agreement.

References to Articles, Clauses and Schedules in this TOR shall, except where the context otherwise requires, be deemed to be references to the Articles, Clauses and Schedules of the Agreement, and references to Paragraphs shall be deemed to be references to Paragraphs of this TOR.

The rules of interpretation stated in Clauses 1.2, 1.3 and 1.4 of the Agreement shall apply, mutatis mutandis, to this TOR.

# 3. General

The Authority's Engineer shall discharge its duties in a fair, impartial and efficient manner, consistent with the highest standards of professional integrity and Good Industry Practice.

The Authority's Engineer shall perform the duties and exercise the authority in accordance with the provisions of this Agreement, but subject to obtaining prior written approval of the Authority before determining:

- (a) any Time Extension;
- (b) any additional cost to be paid by the Authority to the Contractor;
- (c) the Termination Payment; or
- (d) any other matter which is not specified in (a), (b) or (c) above and which creates an obligation or liability on either Party for a sum exceeding Rs. 5,000,000 (Rs. fifty lakh).

The Authority's Engineer shall submit regular periodic reports, at least once every month, to the Authority in respect of its duties and functions under this Agreement. Such reports shall be submitted by the Authority's Engineer within 10 (ten) days of the beginning of every month.

The Authority's Engineer shall inform the Contractor of any delegation of its duties and responsibilities to its suitably qualified and experienced personnel; provided, however, that it shall not delegate the authority to refer any matter for the Authority's prior approval in accordance with the provisions of Clause 18.2.

The Authority's Engineer shall aid and advise the Authority on any proposal for Change of Scope under Article 13.

In the event of any disagreement between the Parties regarding the meaning, scope and nature of Good Industry Practice, as set forth in any provision of the Agreement, the Authority's Engineer shall specify such meaning, scope and nature by issuing a reasoned written statement relying on good industry practice and authentic literature.

# 4 Construction Period

During the Construction Period, the Authority's Engineer shall review the Drawings furnished by the Contractor along with supporting data, including the geo-technical and hydrological investigations, characteristics of materials from borrow areas and quarry sites, topographical surveys, and the recommendations of the Safety Consultant in accordance with the provisions of Clause 10.1.6. The Authority's Engineer shall complete such review and send its observations to the Authority and the Contractor within 15 (fifteen) days of receipt of such Drawings; provided, however that in case of aMajor Bridge or Structure, the aforesaid period of 15 (fifteen) days may be extended up to 30 (thirty) days. In particular, such comments shall specify the conformity or otherwise of such Drawings with the Scope of the Project and Specifications and Standards.

The Authority's Engineer shall review any revised Drawings sent to it by the Contractor and furnish its comments within 10 (ten) days of receiving such Drawings.

The Authority's Engineer shall review the Quality Assurance Plan submitted by the Contractor and shall convey its comments to the Contractor within a period of 21 (twenty-one) days stating the modifications, if any, required thereto.

The Authority's Engineer shall complete the review of the methodology proposed to be adopted by the Contractor for executing the Works, and convey its comments to the Contractor within a period of 10 (ten) days from the date of receipt of the proposed methodology from the Contractor.

The Authority's Engineer shall grant written approval to the Contractor, where necessary, for interruption and diversion of the flow of traffic in the existing lane(s) of the Project Highway for purposes of maintenance during the Construction Period in accordance with the provisions of Clause 10.4.

The Authority's Engineer shall review the monthly progress report furnished by the Contractor and send its comments thereon to the Authority and the Contractor within 7 (seven) days of receipt of such report.

The Authority's Engineer shall inspect the Construction Works and the Project Highway and shall submit a monthly Inspection Report bringing out the results of inspections and the remedial action taken by the Contractor in respect of Defects or deficiencies. In particular, the Authority's Engineer shall include in its Inspection Report, the compliance of the recommendations made by the Safety Consultant.

The Authority's Engineer shall conduct the pre-construction review of manufacturer's test reports and standard samples of manufactured Materials, and such other Materials as the Authority's Engineer may require.

For determining that the Works conform to Specifications and Standards, the Authority's Engineer shall require the Contractor to carry out, or cause to be carried out, tests at such time and frequency and in such manner as specified in the Agreement and in accordance with Good Industry Practice for quality assurance. For purposes of this Paragraph 4.9, the tests specified in the IRC Special Publication-11 (Handbook of Quality Control for Construction of Roads and Runways) and the Specifications for Road and Bridge Works issued by MORTH (the "Quality Control Manuals") or any modification/substitution thereof shall be deemed to be tests conforming to Good Industry Practice for quality assurance.

The Authority's Engineer shall test check at least 20 (twenty) percent of the quantity or number of tests prescribed for each category or type of test for quality control by the Contractor.

The timing of tests referred to in Paragraph 4.9, and the criteria for acceptance/ rejection of their results shall be determined by the Authority's Engineer in accordance with the Quality Control Manuals. The tests shall be undertaken on a random sample basis and shall be in addition to, and independent of, the tests that may be carried out by the Contractor for its own quality assurance in accordance with Good Industry Practice.

In the event that results of any tests conducted under Clause 11.10 establish any Defects or deficiencies in the Works, the Authority's Engineer shall require the Contractor to carry out remedial measures.

The Authority's Engineer may instruct the Contractor to execute any work which is urgently required for the safety of the Project Highway, whether because of an accident, unforeseeable event or otherwise; provided that in case of any work required on account of a Force Majeure Event, the provisions of Clause 21.6 shall apply.

In the event that the Contractor fails to achieve any of the Project Milestones, the Authority's Engineer shall undertake a review of the progress of construction and identify potential delays, if any. If the Authority's Engineer shall determine that completion of the Project Highway is not feasible within the time specified in the Agreement, it shall require the Contractor to indicate within 15 (fifteen) days the steps proposed to be taken to expedite progress, and the period within which the Project Completion Date shall be achieved. Upon receipt of a report from the Contractor, the Authority's Engineer shall review the same and send its comments to the Authority and the Contractor forthwith.

The Authority's Engineer shall obtain from the Contractor a copy of all the Contractor's quality control records and documents before the Completion Certificate is issued pursuant to Clause 12.4.

Authority's Engineer may recommend to the Authority suspension of the whole or part of the Works if the work threatens the safety of the Users and pedestrians. After the Contractor has carried out remedial measure, the Authority's Engineer shall inspect such remedial measures forthwith and make a report to the Authority recommending whether or not the suspension hereunder may be revoked.

In the event that the Contractor carries out any remedial measures to secure the safety of suspended works and Users, and requires the Authority's Engineer to inspect such works, the Authority's Engineer shall inspect the suspended works within 3 (three) days of receiving such notice, and make a report to the Authority forthwith, recommending whether or not such suspension may be revoked by the Authority.

The Authority's Engineer shall carry out, or cause to be carried out, all the Tests specified in Schedule-K and issue a Completion Certificate or Provisional Certificate, as the case may be. For carrying out its functions under this Paragraph 4.18 and all matters incidental thereto, the Authority's Engineer shall act under and in accordance with the provisions of Article 12 and Schedule-K.

#### 5. Maintenance Period

The Authority's Engineer shall aid and advise the Contractor in the preparation of its monthly Maintenance Programme and for this purpose carry out a joint monthly inspection with the Contractor.

The Authority's Engineer shall undertake regular inspections, at least once every month, to evaluate compliance with the Maintenance Requirements and submit a Maintenance Inspection Report to the Authority and the Contractor.

The Authority's Engineer shall specify the tests, if any, that the Contractor shall carry out, or cause to be carried out, for the purpose of determining that the Project Highway is in conformity with the Maintenance Requirements. It shall monitor and review the results of such tests and the remedial measures, if any, taken by the Contractor in this behalf.

In respect of any defect or deficiency referred to in Paragraph 3 of Schedule-E, the Authority's Engineer shall, in conformity with Good Industry Practice, specify the permissible limit of deviation or deterioration with reference to the Specifications and Standards and shall also specify the time limit for repair or rectification of any deviation or deterioration beyond the permissible limit.

The Authority's Engineer shall examine the request of the Contractor for closure of any lane(s) of the Project Highway for undertaking maintenance/repair thereof, and shall grant permission with such modifications, as it may deem necessary, within 5 (five) days of receiving a request from the Contractor. Upon expiry of the permitted period of closure, the Authority's Engineer shall monitor the reopening of such lane(s), and in case of delay, determine the Damages payable by the Contractor to the Authority under Clause 14.5.

#### 6 Determination of costs and time

The Authority's Engineer shall determine the costs, and/or their reasonableness, that are required to be determined by it under the Agreement.

The Authority's Engineer shall determine the period of Time Extension that is required to be determined by it under the Agreement.

The Authority's Engineer shall consult each Party in every case of determination in accordance with the provisions of Clause 18.5.

#### 7. Payments

The Authority's Engineer shall withhold payments for the affected works for which the Contractor fails to revise and resubmit the Drawings to the Authority's Engineer inaccordance with the provisions of Clause 10.2.4 (d).

Authority's Engineer shall -

- (a) within 10 (ten) days of receipt of the Stage Payment Statement from the Contractor pursuant to Clause 19.4, determine the amount due to the Contractor and recommend the release of 90 (ninety) percent of the amount so determined as part payment, pending issue of the Interim Payment Certificate; and
- (b) within 15 (fifteen) days of the receipt of the Stage Payment Statement referred to in Clause 19.4, deliver to the Authority and the Contractor an Interim Payment Certificate certifying the amount due and payable to the Contractor, after adjustments in accordance with the provisions of Clause 19.10.

The Authority's Engineer shall, within 15 (fifteen) days of receipt of the Monthly Maintenance Statement from the Contractor pursuant to Clause 19.6, verify the Contractor's monthly statement and certify the amount to be paid to the Contractor in accordance with the provisions of the Agreement.

The Authority's Engineer shall certify final payment within 30 (thirty) days of the receipt of the final payment statement of Maintenance in accordance with the provisions of Clause 19.16.

#### 8. Other duties and functions

The Authority's Engineer shall perform all other duties and functions as specified in the Agreement.

#### 9 Miscellaneous

A copy of all communications, comments, instructions, Drawings or Documents sent by the Authority's Engineer to the Contractor pursuant to this TOR, and a copy of all the test results with comments of the Authority's Engineer thereon, shall be furnished by the Authority's Engineer to the Authority forthwith.

The Authority's Engineer shall retain at least one copy each of all Drawings and Documents received by it, including 'as-built' Drawings, and keep them in its safecustody.

Within 90 (ninety) days of the Project Completion Date, the Authority's Engineer shall obtain a complete set of as-built Drawings, in 2 (two) hard copies and in micro film formor in such other medium as may be acceptable to the Authority, reflecting the Project Highway as actually designed, engineered and constructed, including an as-built surveyillustrating the layout of the Project Highway and setback lines, if any, of the buildings and structures forming part of Project Facilities; and shall hand them over to the Authority against receipt thereof.

The Authority's Engineer, if called upon by the Authority or the Contractor or both, shallmediate and assist the Parties in arriving at an amicable settlement of any Dispute between the Parties.

The Authority's Engineer shall inform the Authority and the Contractor of any event of Contractor's Default within one week of its occurrence.

# SCHEDULE - 0 (See Clauses 19.4.1, 19.6.1, and 19.8.1)

# **Forms of Payment Statements**

# 1. Stage Payment Statement for Works

The Stage Payment Statement for Works shall state:

- a. the estimated amount for the Works executed in accordance with Clause 19.3.1 subsequent to the last claim;
- b. amounts reflecting adjustments in price for the aforesaid claim;
- c. the estimated amount of each Change of Scope Order executed subsequent to the last claim;
- d. amounts reflecting adjustment in price, if any, for (c) above in accordance with the provisions of Clause 13.2.3 (a);
- e. total of (a), (b), (c) and (d) above;
- f. Deductions:
  - i. Any amount to be deducted in accordance with the provisions of the Agreement except taxes;
  - ii. Any amount towards deduction of taxes; and
  - iii. Total of (i) and (ii) above.
- g. Net claim: (e) (f) (iii);
- h. The amounts received by the Contractor upto the last claim:
  - i. For the Works executed (excluding Change of Scope orders);
  - ii. For Change of Scope Orders, and
  - iii. Taxes deducted

# 2. Monthly Maintenance Payment Statement

The monthly Statement for Maintenance Payment shall state:

- (a) the monthly payment admissible in accordance with the provisions of the Agreement;
- (b) the deductions for maintenance work not done;
- (c) net payment for maintenance due, (a) minus (b);
- (d) amounts reflecting adjustments in price under Clause 19.12; and

Construction of 2 Laning with Hard Shoulder of Peren - Dimapur section on NH - 129A from Design Km 163.592 to Km 173.850 (Length - 10.258 Km) in the state of Nagaland on EPC mode (Pkg - IV) under NH (O) - TSP
(e) amount towards deduction of taxes
3. Contractor's claim for Damages

**Note**: The Contractor shall submit its claims in a form acceptable to the Authority.

#### SCHEDULE - P

(See Clause 20.1)

# **INSURANCE**

# 1. Insurance during Construction Period

The Contractor shall effect and maintain at its own cost, from the Appointed Date till thedate of issue of the Completion Certificate, the following insurances for any loss or damage occurring on account of Non Political Event of Force Majeure, malicious act, accidental damage, explosion, fire and terrorism:

- a) insurance of Works, Plant and Materials and an additional sum of [15 (fifteen)] per cent of such replacement cost to cover any additional costs of and incidental to the rectification of loss or damage including professional fees and the cost of demolishing and removing any part of the Works and of removing debris of whatsoever nature; and
- b) insurance for the Contractor's equipment and Documents brought onto the Site by the Contractor, for a sum sufficient to provide for their replacement at the Site.

The insurance under paragraph 1.1 (a) and (b) above shall cover the Authority and the Contractor against all loss or damage from any cause arising under paragraph 1.1 other than risks which are not insurable at commercial terms.

#### 2. Insurance for Contractor's Defects Liability

The Contractor shall effect and maintain insurance cover for the Works from the date of issue of the Completion Certificate until the end of the Defects Liability Period for any loss or damage for which the Contractor is liable and which arises from a cause occurring prior to the issue of the Completion Certificate. The Contractor shall also maintain other insurances for maximum sums as may be required under the Applicable Laws and in accordance with Good Industry Practice.

#### 3. Insurance against injury to persons and damage to property

The Contractor shall insure against its liability for any loss, damage, death or bodily injury, or damage to any property (except things insured under Paragraphs 1 and 2 of this Schedule or to

any person (except persons insured under Clause 20.9), which may arise out of the Contractor's performance of this Agreement. This insurance shall be for a limit per occurrence of not less than the amount stated below with no limit on the number of occurrences.

The insurance cover shall be not less than value of the contract price.

The insurance shall be extended to cover liability for all loss and damage to the Authority's property arising out of the Contractor's performance of this Agreement excluding:

- a) the Authority's right to have the construction works executed on, over, under, in or through any land, and to occupy this land for the Works; and
- b) damage which is an unavoidable result of the Contractor's obligations to execute the Works.

# 4. Insurance to be in joint names

The insurance under paragraphs 1 to 3 above shall be in the joint names of the Contractor and the Authority.

# Schedule-Q

(See Clause 14.10)

# **Tests on Completion of Maintenance Period**

# 1. Riding Quality test:

Riding quality test: Riding quality of each lane of the carriageway shall be checked with the help of a calibrated bump integrator and the maximum permissible roughness for purposes of this Test shall be [2,200 (two thousand and two hundred only)] mm for each kilometre.

# 2. Visual and physical test:

The Authority's Engineer shall conduct a visual and physical check of construction to determine that all works and equipment forming part thereof conform to the provisions of this Agreement. The physical tests shall include measurement of cracking, rutting, stripping and potholes and shall be as per the requirement of maintenance mentioned in Schedule-E.
