Alignment Plans

The existing alignment of the Project Highway shall be modified in the following sections as per the alignment plan indicated below:

(i) The alignment of the Project Highway is enclosed in alignment plan. Finished road level indicated in the alignment plan shall be followed by the contractor as minimum FRL. The contractor shall, however, improve/upgrade the Road profile as indicated in **Annex-III** based on site/design requirement within the RoW.

(ii) Signage plan of the project highway is enclosed. The contractor shall, however, improve/upgrade upon the traffic signage plan as indicated in **Annex-III** based on site/design requirement as per the relevant specifications/IRC codes/Manual.

(iii) Alignment of the project Highway from Ch. 5+600 to Ch. 5+800 (Design chainage), has been shifted by 2 m RHS as per order of Honorable High Court to safeguard the existing trees. Therefore the EPC Contractor has to develop the project highway as per the modified alignment plan for the stretch mentioned above (affected stretch attached in P&P separately).

Annex - IV

(Schedule-A)

Environment Clearances

The project highway does not require environment clearance as per MoEF circular F. No. 21-270/2008-1A.III (dated 22nd August 2013).

Diversion of forest land of 16.107 Ha is required. Forest Proposal (16.107 Ha) has been submitted on 26.06.2019 and got approval from Forest Department.

The muck dumping sites should be identified by the EPC contractor in consultation with the Authority Engineer and forest department for dumping of muck as stated in Schedule F.
