The RFP for the subject project has been invited with bid due date being **11.07.2016** upto **1600 hrs.** The following bidders participated and submitted their bids.

3	M/s Wapcos Limited

2. In the first meeting of ETEC dated 11.08.2016, the score obtained through infracon were discussed in detail and it was brought to the notice of Committee that the less score reflected through infracon is mainly due to missing details like date of birth, unfilled lane type, unfilled Bridge length, no of bridges, Arbitration cases, inappropriate selection of nature of assignment, alternate selection of mode of project etc. in the CV's of key personnel uploaded on infracon portal. It was also brought to the notice of committee that the due to missing date / unfilled fields of CVs resulted into non-calculation marks by infracon evaluation as software designed to calculate 0 marks in case of any unfilled data which otherwise bonafide for scoring if done manually. The committee therefore for maintaining the transparency and to give equal opportunity to all consultants decided to request all consultants to fill the missing details on the INFRACON Portal. Accordingly, consultant were advised to fill the details initially upto 19.08.2016 vide letter dated 18.08.2016, subsequently reminded vide email dated 30.08.2016.

3. The consultant firm and their key personnel have filled up the missing detail by 14.09.2016. It was also brought to the notice of committee that following discrepancies has been observed in the input sheet of evaluation filled by NHIDCL being first evaluation through infracon portal have now been rectified and accordingly corrected on INFRACON Portal for the evaluation

Affected key personnel for this evaluation	Criteria	Experience required as per RFP	Discrepancies	Action taken for rectification

Bridge Design Engineer	Experience in Highway / Bridge projects	Experience in Bridge Projects	<p>(i) Assistant Manager (Design) was originally not considered in the input sheet filled by NHIDCL resulting into 0 score.</p> <p>(ii) For standalone bridge project 2/4/6 lane was necessitated in infracon sheet. However same is not required as per RFP through the key personnel has shown 2/4/6 lane in words but not filled the input sheet & kept it blank.</p>	<p>(ii) 2/4/6 lane requirement is deleted from the input sheet of evaluation by NHIDCL.</p>
Revenue survey expert	Experience in Highway / Bridge projects and experience in Similar capacity	Experience in revenue matters	It is noticed that some of retired Govt. revenue expert have not filled the cost of project and highway lane clarification resulted into 0 score.	<p>Since retired revenue experts necessarily may not be dealing with highway projects whereas fulfilling the requirement of RFP. Since there is no requirement of experience of revenue expert on highway projects, therefore 2/4/6 lane option deleted in the input sheet of evaluation by NHIDCL.</p>

The Details of change incorporated either by consultant or in input sheet is attached as Annexure-I. In order to maintain the transparency the complete evaluation process have been prolonged which was also necessitated due to nescient stage of INFRACON evaluation system which need continuous improvement till robust and error free system / software finalized. The software of INFRACON Portal may be corrected in due course for future evaluation considering

above discussed issues. The copy of the final evaluated score through the INFRACON dated 15.09.2016 is also attached as Annexure II
