## 3. Queries from M/s RDS Project Ltd.

Sr.	Schedule/Clause/Page	Query/Request	Reply
1	General	As per the tender document it is clear that design of the main bridge is already carried out by the earlier contractor and construction of various elements is in different stages. However, the responsibility of the existing design and quality of the construction already taken up need to be ensured by the successful bidder. In view of the above our understanding is as under, please confirm:  1. Successful bidder needs to check the complete design of the bridge and apprise employer for any	clarifications in para 4 of the above table.

		deficiency in the design	
		2. Successful bidder needs to check the quality of	
		elements accessible and apprise employer for any	
		deficiency in the quality	
		3. Any rectification work in the already constructed	
		elements may be considered as change of scope	
		and suitably compensated for the cost and time.	
		4. In case the design of super-structure is found	
		deficient contractor shall be allowed to adopt his own	
		design and abandon the already pre-casted	
		elements.	
		Chainages of Bridge Section (TCS-II) and voided	
	2.11 / PG-14	slab section (TCS-III) given in Clause-2.11 of	
2		Schedule-B is different than chainages given in	
		clause-7 of Schedule-B. Kindly check and correct	
		chainages.	
		Flexible pavement is proposed but in table (in title)	
3	5.2 / PG-15,16	rigid pavement is mentioned and also IRC: 58-2011	A 970.94
		is mentioned as design code which is for rigid	
		pavement design. Please correct and confirm.	
4		Pavement given in table seems to be unsafe for 20	25. 360.00
		MSA as per IIT Pave. Please check.	Corrigendum-II
5		Design requirements given in clause 5.3 seems to be	
		for rigid pavement. Please correct.	Corrigendum-II
		Flexible pavement is designed for 15 years as per 2	
	5.3 / PG-16, Design life	Laning manual (IRC-SP:73-2018) and 20 years as	
6		per IRC:37-2018. But 30 years is mentioned as	
		design life in clause 5.3 which is generally given for	
	ψ <u></u>	rigid pavement.	
		Design MSA is mentioned as 20 MSA but it is	10.1 V No. 100
		specified as design Traffic in 2030. Design life should	
	MSA	be 15 years after opening of traffic. In that case 2030	
		year mentioned may not be correct.	
. 7		Please check and confirm.	
		If design has to be done for 15 years and traffic is	
		considered 20 MSA in 2030, then total design traffic	
		will be very high. It seems that old data is printed and	
	*	it should be mentioned that min. design traffic shall	

		be 20 MSA. Year 2030 need to be deleted	
		be 20 MOA. Teal 2000 fleed to be deleted	
8		Design life mentioned as 30 years in clause 5.3.1	Please refer
	5.3.1 / PG-16	please review and correct/confirm.	Corrigendum-II
	Junction		Major junction layout is
9		Kindly provide major Junction's layout drawing.	uploaded as Annexure-
